

# HINDENBURG AIMS DOUBLE BLOW; AMERICANS FIGHTING IN GREAT BATTLE

## SIX PERISH WHEN LINER TURNS OVER AT WHARF

Seacocks Left Open on St. Paul Cause Her to Sink While Being Towed From the Navy Yard to a New York Dock

### WORKMEN BELIEVED IMPRISONED IN HOLD

Heavy Guard Is Placed While Authorities Make Investigation of Suspicious Circumstances; Man Jumps in Bay

NEW YORK, April 25.—The huge American liner St. Paul sank at her dock at the foot of Twenty-first street shortly after noon today. Her seacocks are supposed to have been left open, either from accident or design.

A number of others are missing, according to some of the workmen who were allowed to leave the pier. Five of the dead were laborers and one was a member of the ship's crew. Besides four injured men attended at the pier, thirteen were removed to hospitals.

Persons who saw the St. Paul being warped in said she had a decided list at the time, indicating that the rush of water or shifting of ballast, whatever the cause, began some time before she reached the pier.

Many workmen appear to have been imprisoned in the hold of the St. Paul. Observers from the tops of buildings overlooking the pier saw men cutting holes in the part of the hull above water, letting down ladders and bringing up the men who had been imprisoned.

Police and fire boats prevented the approach of all other craft. It was reported that soon after the St. Paul overturned fire broke out in an un-submerged part of the vessel, which the fire boats fought and extinguished.

### WORKMAN IS SEEN TO JUMP OVERBOARD

There were forty-seven United States naval gunners on the St. Paul. One of them declared he had seen a workman jump overboard. One of the sailors, according to this statement, leaped into the water in an attempt at rescue, but failed.

The steamer was coming from the Brooklyn drydock, where she had been undergoing repairs since her arrival from a European port April 15.

As she was warped into her berth alongside pier No. 61, in the North river, she began to sink. She settled slowly into the ooze of the riverbed and is lying on her port side, only partly submerged.

A heavy guard of soldiers and policemen was instantly thrown about her. The only information given out was a police statement that it was believed her seacocks had been opened. Whether this was through carelessness at the Brooklyn drydock or whether it was done while she was en route to her berth is not known.

This phase is being investigated by Federal authorities.

No one will be allowed to enter or leave the pier until the investigation has been completed.

### WILL INVESTIGATE OPENING OF SEACOCK

The investigation as to opening of the seacocks was extended to the Erie basin, where the big liner had been laid up.

"We believe a hole was left in her side," said one investigator.

## What Is the Matter With Oakland?

"What is the matter with Oakland? I understand that it has not reached half its Liberty Bond quota up to the present time."

These were the words of United States Senator William S. Kenyon of Iowa and were addressed to the publisher of The TRIBUNE who sat beside him on the platform at the great auditorium bond meeting last night.

"What is the matter with Oakland?" was an embarrassing question to answer and the publisher of The TRIBUNE, like many other citizens of this community, was compelled to offer the most plausible excuse possible, at the same time expressing confidence that Oakland would finally go "over the top" with a rush.

United States Senator Kenyon leaves California for Washington within a few days. Can Oakland afford to have such an impression of the city carried to the national capital? The government is spending millions of dollars in this community in shipbuilding. New contracts have just been awarded and payrolls will soon be doubled.

Secretary of the Treasury William G. McAdoo is at this moment being appealed to by local citizens to permit the immediate construction of the much-needed bridge connecting Oakland and Alameda. Industrial activity on Oakland harbor, due in a large measure to the government's shipbuilding program, is the chief argument advanced for expedition in bridge construction. A report to Secretary McAdoo that Oakland is a slacker city would be fatal.

Berkeley has gone "over the top." Alameda will soon be "over." Other towns in the county have exceeded their quota.

Nothing is the matter with Oakland, Senator Kenyon. It is slow only in starting.

## FIVE MEN SHOT DURING VERNON SALOON HOLDUP

BULLETIN.  
LOS ANGELES, April 25.—The bandit who was shot and killed by Chief of Police Harris in the gunfight at Vernon last night, was today identified as Henry C. Coyte, 25, of San Francisco.

Coyte registered for the draft in the northern city, giving his address as 226 Eleventh avenue.

LOS ANGELES, April 25.—Two men were killed and three wounded, one dangerously, early today when three masked bandits tried to hold up a saloon at Vernon, a separate incorporated city adjoining the Los Angeles industrial section on the south.

William Coyte, a bartender who failed to throw up his hands promptly as the three bandits commanded as they entered the place, was shot at close range and fell dead behind the bar. Four customers, their hands upraised, backed away from the bar and escaped injury during the free-for-all shooting.

Cadet Yrbani, proprietor of the saloon, who was talking in a rear room with Fred Harris, city marshal, was shot through the right lung as he and Harris ran into the front room at the sound of the first shot. Yrbani was said to have an even chance for life.

### MARSHAL KILLS ONE OF ROBBERS

Harris, drawing his pistol as he ran, shot and killed one of the bandits at his first shot.

The two remaining bandits, firing continuously, backed to the swinging doors, then turned and ran to an automobile outside. Harris followed.

Another bandit fell screaming as he was about to enter the car, apparently hit by Harris' bullet. His companion picked him up and tumbled him into the car. Harris fired again, and the third bandit staggered backward, apparently shot in the leg, but recovered himself. He jumped into the automobile, started it and escaped.

### STOLEN AUTO IS USED BY BANDITS

Harris' informant gave the alarm and police here threw out a dragnet for the two bandits within a few minutes of their escape.

Investigation caused the police here to state that the automobile seemed to be one stolen earlier in the night from Spokane, Cling. This car was identified by its number as one used by three masked men who held up and robbed W. Imbler and Robert Knowlton in the former's grocery store a mile from Yrbani's saloon. They got a small sum there, but overlooked a grip which contained \$350, part of which was receipts from the sub-station postoffice there.

The three bandits fled, leaving their victims locked in a closet, when customers entered.

### Speaker Clark to Announce Decision

WASHINGTON, April 25.—Whether he will accept Governor Gardner's offer of appointment as United States senator from Missouri to succeed the late Senator Cline, will be announced by Speaker Champ Clark late today.

"There are a great many things to be taken into consideration," said the speaker. "Of course I am pleased but whether I shall accept I have not yet made up my mind."

## MORE GUNS NOW THAN WHEN BATTLE STARTED

LONDON, April 25.—Winston Churchill, minister of munitions, announced in the House of Commons this afternoon that since the present battle began British losses of material included 1000 cannon, between 4000 and 5000 machine guns and "between two and three weeks' total manufacture of munitions."

"We now have more serviceable guns than at the beginning of the battle," Churchill said, "and have added to our air service twice the number of machines lost or destroyed."

"Every lost tank has been replaced with one of a newer and better pattern.

"We are now making more airplanes in a week than during the whole of 1914; more in a quarter than during the whole of 1916 and our output in 1918 will be many times that of 1916."

"Women are making nine-tenths of our output of shells."

## Aviation Post Is Resigned By Rothermere

LONDON, April 25.—Lord Rothermere, chairman of the British air board, has resigned, it was announced today. He is a brother of Lord Northcliffe.

Premier Lloyd George in accepting the resignation expressed his regrets that Rothermere should leave his post after successfully launching the unification of the air forces.

Rothermere's reason for resigning was ill health and insomnia, resulting from the tragic war losses. The Pall Mall Gazette says it is rumored that Sir William Weir, director-general of aircraft production, will succeed Rothermere.

### Says Situation of Russ Still Vague

STOCKHOLM, April 25.—With the establishment of telegraphic communication between Helsingfors and Stockholm after a fortnight's suspension, American Consul Haynes at Helsingfors has sent the following message to the American legation here:

"The past has been terrible. The present is bearable. The future is uncertain."

M. Orlofsky, the Bolshevik minister at Stockholm, has declared his willingness to give passports of all properly recommended Americans for trips to Russia.

Prof. Henry Crosby Emery, the American made prisoner on the Alond Islands some weeks ago, has been released from imprisonment at Dantzig and will shortly be permitted to leave Germany.

### Paper Is Punished for Publishing Article

COPENHAGEN, April 25.—Chancellor Hertling has taken action against the Deutsche Zeitung because of an article published by that paper charging that German Foreign Minister Von Kuehlmann and former Austrian Foreign Minister Czernin, during the Rumanian peace negotiations at Bucharest, "abused the courtesies extended to them."

The article declared that Von Kuehlmann often was seen with a well-known demi-monde woman of the underworld while Czernin frequently visited "leg shows."

Further charged that Czernin insulted a certain high-born lady.

## 34 MARINES KILLED AND 240 ARE WOUNDED

BY INTERNATIONAL NEWS SERVICE  
LEASING WIRE TO TRIBUNE  
WASHINGTON, April 25.—The exploits of the United States Marine Corps in France was lifted by the navy department this afternoon. In an official announcement it was revealed that 34 members of the corps have fallen in action. Four officers and 236 enlisted men have been wounded, proving the men soldiers have been in the thick of the fighting.

No details concerning the action in which the marines have participated were given in the bare announcement, the first word concerning casualties in the report that have been given out since units of the corps landed in France.

Officers here found the bare figures very impressive, however, for coming after the long silence they prove the marines have fought silently, but with all the highest traditions of this arm of the service upheld.

No deaths from disease were reported and there were none listed as missing in action.

The first casualty list from the United States Marine Corps units that have been in the thick of the fighting in France, made public by the navy department this afternoon, contained the following names:

Killed in action—Privates Emil H. Gehrke, John Splendun, Edward A. Greber, Corporal Charles K. Toth, Sergeant Albert Rada Jr., Corporal Norman R. Jackson, Henry J. Smart, Privates Leo Watermeier, Leslie H. Arthur, Ray J. Titus, Walter J. Ward, Edward Bollacke, Corporal John Forman, Private Hugh R. Rodenbo, Gunnar Sergeant Edward G. Warren, Privates Glenn H. Hanks, Alfred Eschele, Allen W. Jewett, William E. Giles, John D. (name being verified by navy department).

Private Edward C. Gehrke, Corporal John L. Kuhn, Private Harry R. Williams, Corporal Odum P. Martin, Private Leslie H. Arthur, Gunnar's Sergeant Roscoe Eidebo, Private Lawrence G. Beabout, Privates Elt Wiststein, Charles L. Walkinson, Eugene C. W. Walter, Reynolds, Sergeant Cecil Grimes.

### GEN. DONNELLY SILENT AS TO COURTMARTIAL

MINNEAPOLIS, N. Y., April 25.—Brigadier-General Arthur B. Donnelly, commanding troops at Camp Mills here, declined today to discuss his pending court-martial, except to say that he did not intend to resign under the charges.

Information regarding the character of these was withheld today by officials of the command. It is understood they were filed while he and his troops were in the line.

Announcement was made in Washington last night that General Donnelly, a former Missouri National Guard officer, was under arrest here facing trial by court-martial.

### Unsinkable Vessel Is Ready to Launch

Oakland's "Unsinkable Mifboat" will be launched Saturday afternoon at 3 o'clock at the California Yacht Club, foot of Fourteenth street. This boat, the invention of Captain William Mifboat of San Leandro, was built in a local boat plant.

It consists of a bottom built of two floors with water-tight cork between. The boat is built around this "floater" and so arranged that it will always right itself. It is self-bailing, as any water can run to the sea level past the "floater" the passengers being above level. Balances prevent its capsizing. Jacob has patented the boat, which he has offered to the Government.

## U.S. TROOPS ARE IN THICK OF STRUGGLE FOR AMIENS

Fighting Americans Maintaining Nation's Tradition for Bravery in Storm Center to South of Line on the Somme

### PLAY FULL PART IN GREATEST OF BATTLES

Hold Thirteen Miles of Front in Vital Sector in the Face of Germans' Repeated Efforts to Break Way Through Rear

By FRANK J. TAYLOR.  
United Press Staff Correspondent.  
WITH THE AMERICAN ARMY IN LORRAINE, April 25.—German artillery fire is increasing in the American sectors in this region.

Reports show that the recent German attacks against American positions here were launched by "traveling army units" who are moving continually, carrying their special "frighthfulness" equipment and aviation service.

This type of enemy troops is believed to constitute a permanent mobile organization for testing the strength of the allied lines, particularly those portions held by Americans.

LONDON, April 25.—American soldiers are today taking part in the greatest battle in the world's history. Troops under General Pershing which have rushed northward when the German grand offensive got under way are now holding part of the line in Picardy.

The French war office reported yesterday that the Americans are in the thick of the fighting at the vital point southeast of Amiens. It is supposed, however, that French troops are mixed in with them.

The movements of the Americans, as well as the other allied forces on the western battle line, are being directed by General Foch of the French army, probably the greatest military strategist in the world.

WASHINGTON, April 25.—Fighting Americans are in the storm center south of the Somme.

Brigaded with the allies, they are taking a valiant part in the struggle that rages here. With it came today the dilution of the allied armies with Americans has proceeded so far that now the United States has a considerable representation in the battle. This strength is being concentrated in the following manner:

### AMERICANS ARE HOLDING VITAL LINE

The fact that our men are withstanding the Teuton blows in the major struggle was lauded as a great thing here. With it came thought that the American casualties will swell, but with every list will be a vaster one in Germany.

The brigading process is still under way. At some points the addition of American forces to the French and British has been heavier than at others. It was officially stated, though the War Department declined to indicate how much of a strength we have injected.

The Teuton smash south of the Somme is likely to go the route of Germany's other blows to date—advance for a time and then come to a complete block.

This was how military men sized up the prospects today in the wake of news that the offensive had netted a mile about Villers-Bretonneux and had taken that place.

### LEADERS HOPEFUL LINE WILL HOLD

The fact that the retirement elsewhere was so small as far as reported was taken as hopeful, though by no means conclusive that there would not be some "give" in the allied structure.

The new drive has the actual capture of Amiens as its main objective apparently. The first objective, Villers-Bretonneux, has been taken, but behind that place the terrain is such as to give the defenders an advantage, and unless the line elsewhere recedes too much, the Teuton will find his progress beyond Bretonneux anything but easy going.

American army men are disappointed that resumption of the battle found the allies still on the defensive. But they rely so thoroughly on General Foch that they believe he has some surprise strategy in store which makes an allied stroke inadvisable at the moment.

Meanwhile, there is strong urging for the allies to pursue the aggressive on the seas, so valiantly undertaken in the Ostend and Zeebrugge raids. The results are considered worth the sacrifice.

## Hangard Alone Is Taken While Villers Still Is Scene of Fierce Battle

(By United Press)  
LONDON, April 25.—Hindenburg is striking simultaneously in Picardy and Flanders.

While the battle still swirled around Villers-Bretonneux today, in the drive against Amiens, the Germans were smashing at the northern line of the Flanders battle front. Their only gain was the capture of Hangard, southeast of Amiens.

The enemy suffered a temporary reverse on both fronts. In the neighborhood of Villers-Bretonneux, the British regained some ground by counter-attacks. Northeast of Baillieu, in Flanders, the French repulsed a heavy attack yesterday evening, but the assault was renewed early this morning and was being pressed on a wide front, including a sector held by the British, to the east of the French position.

## HUNS PREPARE TO MAKE A BELGIUM OUT OF HOLLAND

BULLETIN.  
THE HAGUE, April 25.—Foreign Minister Loefer, speaking in the Chamber of Deputies today, admitted that the dispute with Germany over the use of Dutch sand and gravel is "most serious."

THE HAGUE, April 25.—German cavalry has made a military demonstration of hostile nature along the Dutch frontier fronting Westphalia, according to information received today from Rotterdam.

It is now declared that while the German note to Holland was not exactly an ultimatum, it was couched in strong terms and demanded an immediate answer.

The text has not yet been made public at The Hague, but it is generally supposed that Germany is not only demanding transportation rights on Dutch railways and canals but also supplies of various kinds.

MINISTERS LEAVE FOR THEIR HOMES.  
According to press reports the German minister has left The Hague for Berlin and the Dutch minister on his way from Berlin to The Hague.

WASHINGTON, April 25.—Germany is holding the greater part of Holland to enforce sanction of supply shipments through that country into Belgium.

In her desperate efforts to drive a decision on the west front Teuton diplomacy is once more showing its ruthless disregard for the rights of neutrals.

The situation appeared fraught with war possibilities, but there was a strange dearth of official news here concerning developments.

### HOLLAND MUST SACRIFICE NEUTRALITY

If war comes, Germany would undoubtedly seek to plow through Holland, opening a path to Belgium which she wants for troops and supplies. Holland's border is well protected by highly-trained troops, but it is doubtful that the Dutch could withstand long any serious attempt at invasion.

It is held certain here that Holland will not agree to German's demands unless she is willing to sacrifice her neutrality.

Holland knows that if she throws her lot in with the Germans the allies are in a position to take virtually all her ships and her colonies.

Hence, the little neutral's position becomes gravely dangerous. If the British have succeeded in bringing up the German I-boats off the coast of Zeeland, Germany is forced to evacuate.

## Peasants Slay Uhlan Force In Ukraine

BY ASSOCIATED PRESS.  
LEASING WIRE TO TRIBUNE.  
AMSTERDAM, April 25.—Three squadrons of the Fifth Polish Regiment of Uhlans have been annihilated in Hodolia by Ukrainian peasants who refused the soldiers' demands for food supplies, according to a Polish press agency dispatch received by the Dutch press by way of Vienna. The peasants were armed with machine guns and mine throwers.

The foregoing cablegram evidently refers to the railway running northward from Vladivostok.

### Fewer Than Twelve Fail at Seicheprey

BY ASSOCIATED PRESS.  
LEASING WIRE TO TRIBUNE.  
WASHINGTON, April 25.—The number of Americans killed in the German attack of April 20 near Seicheprey was less than a dozen and the number of injured was about twenty. These figures, made known today, appeared to give support to the German claim that 183 Americans were captured since it previously had been admitted that the American casualties were around 200.

### Troops Said to Be Busy Along Amur

LONDON, April 25.—Red Guard troops (Lassan Bolsheviks) are marauding along the Amur railroad intercepting travelers, according to an agency dispatch from Peking today. The marauders are also active along the Amur river, dismantling steamers.

The foregoing cablegram evidently refers to the railway running northward from Vladivostok.

### Count Szernyi Is Hungarian Minister

ZURICH, April 25.—Count Joseph Szernyi has been appointed Hungarian minister. It was learned here today.

\$25,000 ESTATE**

---

With three years and a half to

serve Uncle Sam as a yeomanette, detailed at the Bethlehem Shipbuilding Corporation, Miss Irma Stivers, Oakland girl, living at 854 Isabella street, has received word that she is heiress to a \$25,000 estate of her uncle, E. H. Hawthorne, Los Angeles capitalist and mining man who died in the southern city, March 17.

Miss Stivers enlisted for four years in the government service last December. Her enlistment does not expire until the full period of time for which she joined.

The estate which found her the only heiress, will take some time to settle up, and she will receive her discharge from the navy in time to step into the inheritance.

"It's a pleasant sensation to look forward to," said Miss Stivers tenderly. "I am doing my bit for Uncle Sam and that is even more pleasant than knowing that this legacy awaits me."

# 49 AMERICAN NAMES ARE ON CASUALTY LIST

WASHINGTON, April 25.—The names of 49 American soldiers appear on the casualty list made public by the war department today. Two were killed in action, six died from wounds, seven died from disease four died from accidents, five were wounded severely, twenty-four wounded slightly and one died from causes unknown.

Private Hector E. Rollman previously reported missing in action, is today reported a prisoner in Germany. The list follows:

Killed in action—Lieutenant Lawrence S. Avar, Private Frank McCall, and Private Sergeant Frank Senger. Privates Clarence S. Eaton, Giuseppe Molinari, Frank Alekno, H. G. McDermott, Samuel Roche.

Died of disease—Privates Charles H. Clough, pneumonia; Elmer B. Johnson, scarlet fever; Albert Kelly, pneumonia; Harvey A. McPeak, pneumonia; George Moore, appendicitis; Earl Burton Rathburn, pneumonia; Elmer George Zischlag, pneumonia.

Died of accidents—Corporal Daniel C. Scanlan, Private Daniel C. Frazier, Lieutenant James Calder Marquart, Private Robert Sammons.

Wounded severely—Corporal A. Johnson Jr., Private Omet A. Godin, John H. Simmons, Napoleon St. Charles, Rodger W. Williams.

Wounded slightly—Sergeant George F. Dolan, Corporal Till Samuel Buckingham, Fred D. Christensen, Edward P. Joyner, Privates Earl W. Burrows, Walter F. Berry, Walter B. Birkland, Everett E. Bristow, John M. Corbit, Charles F. Goodnow, Roy Gulickson, Nasib Haddad, Harry A. Kane, Joseph A. Legault, Theodore Rand, McCabe, Steve Melumuk, Arthur B. Moulds, William J. Mullanev, Harry A. Murray, Andrew J. Neit, George M. Powers, John E. Seifried, Patrick M. Stanton.

Died from other causes—Private Jesse M. King.

# DESTROYER CREW ARE COMMENDED

WASHINGTON, April 25.—Officers and men of the United States destroyer Parker were commended today by Secretary of the Navy Daniels for bravery and heroism in their work of rescuing the survivors of the British hospital ship Genart Castle, torpedoed February 26.

The men commended are:

J. C. Coe, Roxbury, Mass., who jumped overboard to rescue a drowning man, and J. T. Newman, New Brunswick, N. J., who went to Coe's assistance, and had to be called back by the executive officer.

Two others, David Goldman, Philadelphia, and Wilbur Mathews, Tonkers, N. Y., jumped overboard to assist the fourth officer of the British vessel.

Others commended are: Roy E. Hoffes, Providence, R. I.; Thomas F. Truett, Brooklyn; James H. Quinn, Mount Vernon, N. Y.; and Francis W. Deegley, Des Moines, Iowa.

The officers and members of the crew were given Great Britain's thanks by Thomas J. McNamara, secretary of the admiralty, who commended them before the parliament.

The Parker was trailing two submarines, which had been reported when the survivors were sighted. A heavy sea was running.

# Miss Everts Speaks to Housewives

Miss Katherine Jewell Everts, representing the federal food administration, addressed a group of Oakland housewives this morning in the upper hall of the Defenders' Club, urging them to a greater determination to do their part in winning the war through their households. Miss Everts is touring the state in a series of meetings directed toward the campaign for food conservation and substitution. Nearly 100 women were in her audience this morning.

The program was arranged by Miss Ethel Moore, chairman of the local women's committee, Councils of National and State Defense, as a part of the "No Wheat Week" campaign which was inaugurated on Monday. Recipes of war breads eliminating wheat products were distributed.

# Union Sets Record in Purchase of Bonds

Local Union No. 555 of the International Brotherhood of Electrical Workers, set a new record for Liberty Bond buying last night when the organization voted unanimously to buy only bonds as the local's contribution to the war fund. This is in addition to the individual holdings of the local members, each one of whom has purchased one or more \$50 or \$100 bonds. The total contribution of this local is said to run into thousands of dollars.

At the same meeting arrangements were made for the joint picnic of locals which is to be held at Neptune Beach some time during the coming July. The committee will have charge of the entertainment and picnic features included: Mark Antley, W. Tyrell and R. A. Rodell.

# Refused to Accept Help From Police

Refusing the assistance of the police following her injury by falling from a car at Thirteenth street and Broadway last yesterday, Mrs. Amanda Friberg of 3645 Crittenden street, had to be forced to ride in the ambulance to the Emergency Hospital.

Harry Teeple responded to the call, but the injured woman would have nothing to do with the police, she said. So Officer Teeple called upon two women who were passing, Miss Myra McDonald of 2210 Atherton street, Berkeley, and Miss Mary Abbey of 2720 Elmwood street, Berkeley, and they assisted the aged woman into the conveyance. She was treated for a laceration of her head.

# To Make Survey of Bond Buyers

The board of supervisors today designated Clerk J. C. Holland to make a survey of the county employees to ascertain the names of those who have not purchased Liberty Bonds.

The resignation of Dr. R. Milton Manson, for three years resident physician at the county hospital, was received by the board. The doctor has resigned to enter private practice in Hayward.

# RUSSIA FEARS HUN BREAK OF TREATY PACT

WASHINGTON, April 25.—Germany is continuing her operations in the Crimea and the Russians now are apprehensive that it is the German intention to violate treaty agreements and to capture or destroy the Russian Black Sea fleet. The state department today received word that the Moscow authorities have telegraphed directly to the German foreign minister at Berlin a protest against the German military operations. The protest points out that the German Ukrainian forces have advanced beyond Perpep and now are moving toward Simferopol in the Crimea, and then adds:

"Even according to the ex parte statements of the Ukrainian leaders this territory does not form a part of the Ukrainian republic and the German action violates the Brest-Litovsk treaty, as it is in the territory of the people's soviet. It is in fact a threat toward our Black Sea fleet."

AMSTERDAM, April 25.—A deputation from the Crimea has arrived at Kiev to urge on the Ukrainian Rada the incorporation of the Crimea in the Ukraine, according to a despatch from Kiev to the Lokal Anzeiger of Berlin by way of Vienna. The government of Minsk and the district of Homel also have sent deputations requesting union with the Ukraine.

The German official statement of Wednesday said that German troops have reached Simferopol, the capital of the Crimea. A great part of the government of Minsk has been under German control for some time, as has Homel.

# ALL ENTITLED TO GOLD CHEVRON

By BERT FORD.  
International News Service Staff Correspondent.

WITH THE AMERICAN ARMY IN FRANCE, April 25.—Joy was spread through the entire American expeditionary force today by the official announcement that all officers and enlisted men in France, regardless of whether they are engaged in combat or doing non-combatant work, are entitled to the gold chevron of six months overseas service.

A majority already were sporting the gold V-shaped stripes on their sleeves under the original plan of issue, whereby only men at the front received the insignia. The American boys not at the front felt this to be a slight on them.

Of theirs that they had been assigned to duty in France away from the front, stationed at French or British ports or were doing clerical work instead of fighting.

The decision was reached following negotiations with officials of the war department at Washington and is extremely popular. Those who have served less than six months are to be awarded a blue chevron.

It is also announced that men in the tank corps will wear a special collar insignia, a miniature tank mounted over two salamanders, heads toward center and with a half wreath beneath.

# FIFTY OF U. S. TROOPS TO TALK FOR BONDS

WITH THE AMERICAN ARMY IN FRANCE, April 25.—Fifty private non-commissioned officers, it was learned today, are on their way back to America to speak for the third Liberty loan. The men were selected from various units and various departments for their ability and for their appearance. It was an unexpected honor for the winners, who were jubilant over their vacation and the opportunity it afforded.

# Says Husband Won't Let Her Play Organ

Alleging extreme cruelty on the part of her husband, William B. Sloan, a commercial salesman, Mrs. Clara J. Sloan has sued for separate maintenance of \$150 a month and division of the property. The complaint alleges that the defendant owns commercial stocks to the value of \$17,000, besides a block of 6000 shares in an Alaska petroleum and coal company and half interest in a patent for an electric faucet. Besides this he owns 600 acres of valuable land, the complaint says.

Mrs. Sloan complains that her husband refused to allow her to play the pipe organ in church or let the choir go to their home for practice, that while she was away he posed as a single man, and that he refused to pay the surgeon's fee when she was operated upon for a physical trouble. The couple separated in 1916. They have one grown son, Edmund G. Sloan.

# Bridge Closing Order Is Issued

An order was issued by the board of supervisors today, effective May 1, closing the Webster street bridge every morning between 7:30 and 5 o'clock and from 7:30 to 5:15 in the afternoon.

The resolution was introduced by Supervisor W. J. Hamilton, who said that the interests of the employees of the ship building interests are frequently detained so long as to be locked for half a day, by reason of the bridge being open to admit the passage of water craft. The rules of employment require the employees to be at the rate at 5 minutes to 5.

A communication from Colonel W. H. Heuer recognized the necessity for the action, which the War Department formerly opposed.

# Temple Sinai Will Hold Special Service

Another special service has been arranged at Temple Sinai, Twenty-eighth and Webster streets, for Friday, April 26, commencing at 8. The lecture will deal with the subject of "The Jewish People," by Dr. H. H. Hoover, of the Department of Labor, and the Jewish Welfare board.

# French Grateful for Y. M. C. A. Army Aid

PARIS, April 25.—John R. Mott of the American Y. M. C. A. war council was received by President Poincare today and described the tour of inspection he has just completed of association work among American and French troops. The president showed keenest interest in the recital and said:

"In the name of the French government and people I wish to thank the American people for their indispensable help in placing the Y. M. C. A. at the disposal of the French army."

# Petaluma Plans Great Liberty Day Rally

PETALUMA, April 25.—Petaluma is planning a big rally for tomorrow, Liberty Day. Frank McGowan of San Francisco has been selected to deliver the address at the Hill Opera House. A parade in which the school children, fraternal organizations and labor unions will participate, will be a feature of the evening. Petaluma is leading in the county in the sale of Liberty Loan bonds and up to last night had sold \$392,450 in bonds with 1491 subscribers.

# Officer's Mother Has Hope for His Safety

PETALUMA, April 25.—Mrs. Charles Offutt, mother of Lieutenant Lewis W. Offutt, chief engineer on the Lake Morro, who is reported missing, is still hopeful that her son will show up and thinks he might have been picked up by a ship which has been reported by wireless for fear of giving her position to the enemy. A delayed letter written by the young naval officer reached here this week. He told his mother to be cheerful, as he hoped to have a safe trip across.

# Admiral Farragut Runs Into Iceberg

SEATTLE, April 25.—The Pacific Steamship Company's passenger steamer Admiral Farragut was in collision early today near St. Petersburg, Alaska, while en route to Anchorage, Alaska, according to a wireless message received here.

Company officials asserted they believed the boat hit an iceberg. Seams in the boat's oil and water tanks were opened by the shock. She will probably return to Seattle.

## MME. DONE WITH COSTLY HUSBAND

SAN FRANCISCO, April 25.—It cost Madame Marguerite La Loy something more than \$2500 before she discovered that the laws of this country do not compel a woman to support her husband.

When she did ascertain the fact she despatched to her husband, George La Loy, in Spain, a cablegram to the effect that "Zee contra" eez broke, and instructed him for divorce. According to the complaint La Loy is alleged to be a deserter from the French army.

Mme. La Loy says she was married in Paris in 1913 and came to this city with her husband on money supplied by herself. The following year when the war started her husband deserted and she returned to France for service in the army. Six months later, she alleges, he deserted the army and her.

Before leaving San Francisco, Mme. La Loy claims, her husband collected \$2500 from her, which she sent him. Since going to Spain he has taken out money for her, which she sent him. Then she learned that under the American law she is not bound to support her husband and therefore she considers the marriage contract broken.

## Sherwood Will Head Teachers' Association

SULLMAN, Wash., April 25.—E. C. Sherwood of Spokane was re-elected president of the Washington State Music Teachers' Association here and Mrs. Grace Barker Hulscher of Spokane was elected vice-president. Miss Sara J. Smith of Seattle was chosen secretary and Miss Eula Cranberry of Walla Walla treasurer. Miss Jessie Belton of Bremerton and Mrs. J. A. Mahan of Ellensburg were elected to the executive board.

## She Prepares to Divulge City's Innermost Secrets

Be Careful of Thoughts; Leona Is Coming to Town

Are you in trouble? Business bad? Anything at all wrong? Then Leona La Mar can help you out, next week.

Leona La Mar is "The Girl With the Thousand Eyes." She sees all, knows all, tells all. She can read the innermost thoughts of man. She can see into the past, present or future. She can guide anyone to anything. And she always tells the truth.

Leona La Mar comes next week to the Oakland Orpheum. She is not a clairvoyant. She is not one of the usual types of spiritual mediums. She is real. She is the only human being in the world who has proved to science that she actually can read the thoughts of men.

"Think something," she urges anyone who doubts her.

The subject thinks.

She tells him his innermost thoughts, just as if she heard them in words.

You ask her if Jim Jones is going to cheat you in a business deal. She "connects" her mind with his; and tells you what he is thinking about.

If you have a friend in Europe, in the trenches, her mind can leap across the Atlantic to him. She can tell you where and how he is; what he's doing; all about him. Her mind travels faster than the next fastest thing in the world, light.

It is not a trick.

Leona La Mar challenges anyone to propound any mental problem she cannot solve. She can predict anything that man can think about.

It is not a science that can be learned. Since childhood Leona La Mar has been able to look into the minds of men. She hears the brain whisper to her just as others hear the voice whisper. She can read minds thousands of miles away.

LEONA LA MAR

## SECRET SERVICE DEFENDS WORK

WASHINGTON, April 25.—Refuting charges that the Department of Justice had not been active in combating enemy propaganda within the United States, the Department today reported that at least 3,500 convictions had been obtained during the last year under "wholly inadequate federal laws against sabotage, disloyalty and other forms of interference with the war." These figures were gathered from partial reports of United States attorneys and actually represent only a small part of the department's work of policing the country, it was said.

On charges of interfering with operation of the draft, 2,465 persons have been convicted or have pleaded guilty, and 181 have been acquitted. Under the espionage act, which has been amended since July 1, 1917, there have been 275 convictions and 17 acquittals. Under general war statutes, 228 have been convicted and 69 acquitted. Twenty-three persons have been found guilty of making threats against the President and ten acquitted on this charge.

## Employees of Plant Are Given Bond Flag

There is a crew of good Americans housed in a concrete building at First and Grand streets. These men operate the big steam plant of the Pacific Gas and Electric Company, where the electric power is generated to supply Alameda county.

The men are a factor in your safety; the power they generate lights your homes, your streets and highways; it protects you from the transgressor.

To further safeguard your interests and to help make this country a safe place to live in they have subscribed to the limit of their ability in the third Liberty loan. It is one of the 100 per cent departments of the Pacific Gas and Electric Company.

At a meeting of the Pacific Service Employees' Association last evening Frank A. Leach, Jr., district manager, presented the boys with their 100 per cent flag, which now flies beneath Old Glory at the plant.

Consequently she is the most wonderful seeress in the entire world. Her stage exhibition is baffling; wonderful. She answers the questions of any in the audience, reads the thoughts of any; sees all and tells all.

The theatergoer can write his own question on his own paper, seal it and never let it leave his hand. Her eyes can pierce paper, pockets, anything, and she can read it. Then she can answer it. Her mind knows all that man possibly can.

A stranger may walk up and ask his name. She tells it, though she never saw him before; tells him further what he does, where he was born, and even intimate secrets none but he know.

If she wanted to, Leona La Mar could be the source of mankind. Instead, she is the friend of man. Everything she does is to help mankind. She has made fortunes for those who have asked her advice on business. She has found thousands of dollars' worth of lost property. She has made many people rich.

So, if you have anything to ask of her, ask it next week at the Orpheum. She will hold special sealed letter days, a woman's matinee for women only, will receive guests one afternoon on the stage (or personal audience) each week.

Her aim is to serve Oakland.

Anything Oakland wants to know she will tell.

Her engagement opens Sunday matinee at the Orpheum.

## The Quest of Mohammed's Sacred Slipper

A Series of Mystery Stories That Will Set Your Heart Beating Faster.

Will Start in Sunday's TRIBUNE

Saxe Rohmer, Creator of the Fu Manchu stories, has outdone himself in this new series.

## The Phantom Scimitar

Is the title of the first of these hair-raising tales.

Professor Deeping, famous Orientalist, stole Mohammed's slipper and fled with it to England. Later he was found murdered, in a room with door and windows locked on the inside. And the scimitar that killed him was found, wet with his blood, in a small unopened box beside him. How did it get there? Who murdered him? How did the murderer get away? Read this and the other weird adventure stories in this remarkable series to learn of the mysterious fate that pursued everybody who touched the stolen slipper.

## AMERICANS AND HINDUS TO FIGHT

SAN FRANCISCO, April 25.—Various angles of the situation growing out of the shooting to death in the court room of Federal Judge William C. Van Fleet of Ram Chandra and the slaying of his brother by United States Marshal H. H. Holohan are being investigated by Federal officials.

At the same time the attorneys for the various defendants are planning the next move they will make and it is expected that many legal technicalities will enter proceedings when the men come up for sentence next Tuesday.

Present indications are that Franz Bopp, former German consul general, and the members of his staff will not take any appeal, but will begin at once serving their sentences. The others are E. H. Von Schack, vice-consul; Heinrich Kauffmann, Walter Sauerbeck and Charles Lattendorf. Theodore Roche, their attorney, has indicated that they will fight the case no further.

All of the American defendants have announced their intention to take an appeal, and it is believed probable that the majority of the Hindu defendants will do likewise.

The investigators have established the fact that Ram Singh and Bhagwan Singh, a leading defendant, were in conference a half hour in the prisoners' quarters in the marshal's office Tuesday morning before the case was called by Judge Van Fleet. Bhagwan Singh will be questioned today.

It was a quarrel between Chandra and Bhagwan Singh over the former's methods that split the Hindoos of the coast into two factions.

Witnesses examined yesterday asserted that Ram Singh had not left the courtroom during the recess. It was established, however, that Santokh Singh had done so, according to the officers. This eliminated the possibility that Ram Singh had brought the weapon into the courtroom, as he had done in the case of the Hindu defendants just before he entered court in the morning.

Ram Singh, when the split occurred in the Chandra party, joined the faction headed by Bhagwan Singh, and in March 1917, Ram Chandra printed an article in the Ghadr denouncing Bhagwan Singh, Ram Singh and Santokh Singh.

## Eloquent Plea Wins Freedom for Son

The eloquent plea of an old soldier who "fought the battles of the republic for the integrity of this great land" won probation for his son, Gustaf, in the federal court here. Superior Judge James G. Quinn for sentence on his plea of guilty to a charge of robbing a grocery store, and the offender was given an opportunity to redeem himself. The letter that swayed the judge was as follows:

"The undersigned, father of my guilty boy, pray for his and the family's sake, your clemency. I am 83, nearly blind, a member of the G. A. R. and also a long-time member of Applegate Post, No. 3, of Nevada and California, in good standing and further good military record. I fought in the battles of the rebellion for the integrity of this great land. Please send my boy to war and may God bless you, is my last prayer on earth."

## Sedition Charged in "Bible" Publication

COLFAX, Wash., April 25.—R. A. Ish of Spokane and two other persons whose names were not made public were arrested at Garfield on instructions of the federal department of justice on charges of circulating seditious literature. They were declared to have been distributing copies of an International Bible Students' publication attacking the suppression of "The Finished Mystery," a book published by the society. Ish was released on \$1000 bond and the other two prisoners were held.

## WAR YEAR SEES INSANE INCREASE

Psychologists who contend that the tension of war is accountable for many cases of mental unbalance are apparently supported by the records of California State institutions, where there are 1200 more insane inmates than a year ago, or since this country entered the war. In its monthly census bulletin the California State Board of Charities and Corrections states that there are 11,263 insane and imbecile patients in State hospitals this year compared with 10,019 last year.

Of the 11,263 patients, 199 are females and the remaining 11,064 are males. The total number of inmates of different State institutions this year to date is 16,295 compared with 15,695 in 1917, an increase of 613. In March there were 3075 males and 25 females in two State prisons. Boys in the State schools during March totaled 574, and girls 121. The insane and imbeciles in the State hospitals in March numbered 7087 males and 1019 females.

Rocklin, Placer county, are being moved through this section in bands, en route to a summer range in Mendocino county.

## The Thief Takes the Unprotected Car

The automobile thief dislikes to attract attention. He slips quietly into a car, drives away—and no one's the wiser, unless the car is protected by the Security Auto Theft-Signal.

That "sure does" attract attention. It enables the public and the police to distinguish between the owner and a thief. Consequently

—the thief seldom attempts to steal an auto protected by the Security Auto Theft-Signal—he takes the "other" car.

## Here's the Proof

Thousands of car owners on the Pacific Coast have avoided loss by adopting this Signal. During the past year more than 5000 cars on the Coast NOT equipped with the Theft-Signal have been stolen.

## The Theft-Signal

Is simplicity itself. When the owner leaves his car he locks the Signal on the right hand wheel of everyone. It is in plain sight of everyone; it is away from all mechanism; the owner instantly unlocks it with his special key. Any unauthorized person must "tamper" or "mess" it alone. In this way it enables the public to know the owner from a thief.

## \$100 REWARD

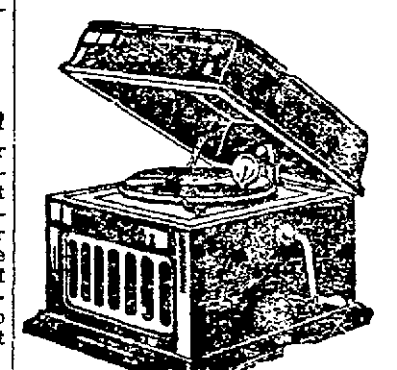

will be paid by the manufacturer to the person responsible, at any time, anywhere, for the arrest and conviction, as a thief, of any person operating an automobile equipped with a Security Auto Theft-Signal, or tampering with a Theft-Signal in place.

Be suspicious of any one working around the right hand wheel of an automobile for more than a few seconds. It is likely to be a thief trying to remove a Theft-Signal. Call the police.

# U. S. NOW HAS MOST POWERFUL OF SUPER-GUNS

PHILADELPHIA, April 25.—The greatest engine of destruction that has yet been produced in artillery by the great war will move out of one of the munitions factories on the Delaware river tomorrow morning.

This statement by Samuel Vauldin, vice-president and general manager of the Baldwin Locomotive Works, who has won the sobriquet of "father of America's super-gun," is the official announcement that America's super-gun is ready.

Vauldin, who is chairman of the subcommittee on army and navy artillery of the Council of National Defense, added that the super-gun, which is being planned, designed, constructed and completed within ten weeks' time.

Besides vouchsafing the additional information that the side gutters of concrete weigh 75 tons apiece, Vauldin would not go into the details of the great cannon.

## Policemen, Shot by Negro, Arrest Him

NEW YORK, April 25.—Two policemen, dressed as soldiers, in their effort to round up "bootleggers" who are selling liquor to men in uniform, were wounded early today in a fight with a negro suspect, but got their man.

Patrolman John P. Judge received a bullet wound in the jaw and Patrolman Harry Connell was stabbed in the head. The negro, who gave his name as Richard Johnson, darted into an alleyway and opened fire with a Winchester rifle.

## Free Market For Oakland Urged in Food Conservation

### Surplus From War Gardens Could Be Disposed of at Stands On Curbs

A municipal market for Oakland as a war food conservation measure to provide an outlet for the increased production in Alameda county will be urged by Mrs. James Hamilton, representing the war garden division of the farm bureau and the women's committee of the Council of Defense, at a meeting to be held tomorrow afternoon at the Frick school.

Mrs. Hamilton announced today that through the war garden committee of the War Service League and the Council of Defense more than 100,000 tons have been placed under cultivation, representing 350 to 400 acres of land. This was vacant land, serving no useful purpose. Under the direction of the committee and with the advice of the Alameda county farm bureau it has been made productive at little cost.

In addition to this there are forty or more school gardens which are being carefully worked by the school war garden clubs. There is at present no outlet for this increased production excepting the consumption of food by the family working the garden. But in all most every case this production will be in excess of the family's needs and in a very large number of cases will be of marketable quality and quantity in a municipal market, although not sufficient in quantity to tempt the regular dealers.

**WOULD PREVENT WASTE.**  
It is to prevent this extra production going to waste that Mrs. Hamilton is urging the creation of a municipal market in Oakland. The municipal curbside market, established and conducted at small cost, is the solution to this difficulty, according to Mrs. Stanley J. McCormick of the woman's committee of the National Council of Defense, in a statement sent out by the national committee on public information today. The statement follows:

"A wall is heard on every side this year that farmers will not plant because last year they could not dispose of all their produce. What can we do? Well, one thing we can do is to establish a curb market. 'Curb markets convey a general idea of the last word in frenzied finance and big business, but the term was given another meaning when women took up the idea of using curb markets as a direct exchange between producer and consumer. These markets enabled the farmers to bring or send their wares and sell direct to the housekeepers. The woman's committee had reports of such markets in many states, including the California Fruit Exchange in San Juan; a market in Indianapolis, Ind.; one in Lexington, Ky.; another in Deerwood, Minn., and one at Minneapolis. The Hoover store in St. Louis, Mo., sells surplus food and is a community enterprise of much interest. New Jersey has a market for surplus produce at Summit and Newark. New York had markets at Albany and New York City. Ohio had several, including one at Canton. Wisconsin did well with those at Madison, Fond du Lac and Litchfield center. At Santa Fe, N. M., there was a children's market, and New Mexico also supported a food exchange."

**SYSTEM IS SIMPLE.**  
"The system of establishing vegetable markets was very simple. A permit was obtained to use certain streets as markets and here the farmers drove their carts and wagons to the curb and sold directly from them. The principal work that women had to do, aside from getting permits, was to advertise the markets among housewives and farmers so that they should become a considerable center of exchange."

"The women interested in the movement through the woman's committee of the Council of National Defense and the food administration drove through the country, not only encouraging farmers to use the markets, but even carrying their wares into town for them. A strictly cash system was observed. Complete elimination of overhead expense made the prices very low, while the farmers' profits were better than usual."

"The principal advantage of this system of retailing is to encourage greater production and to avoid long hauls. The certainty of an immediate market makes the farmer glad to plant larger crops than he would if he had to dispose of them presented a problem. The more locally grown vegetables and fruit used in a town the less that town must draw on our overburdened transportation system for its food supply."

## CONCERT GIVEN BY SHRINE BAND

Ashmores Band of Ashmores Temple, Order of the Mystic Shrine, under the leadership of Professor John Smith, gave a concert last night at 8 o'clock at the Scottish Rite Cathedral corner of Broadway and Broadway. The band, consisting of the members of Ashmores Temple and the Masonic fraternities in general, Ashmores Temple, assisted by Miss Alice Davies and her trio, and the Shrine quartet headed by Carl Edwin Anderson.

The concert was closed by the audience singing a number of patriotic songs in which community singing they were led by Carl Edwin Anderson and Professor Smith.

Ashmores Band will give during the coming year a number of free concerts in all parts of the city. The officers of Ashmores Band are: Charles Chubb, manager; Professor John Smith, director and leader; William J. Macdonald, drum major; W. H. Chapman, president; Fred L. Button, vice president; Carl T. Doell, treasurer; W. L. Paulson, secretary.

## Cut Ship Building Time to 49 Days

PORTLAND, April 25.—The hull of the wooden steamer Caponka, riding in the Willamette river today, represents the world's speed record in wooden ship construction. It having taken the Grant Smith-Porter Ship Company but 49 days to complete this latest aid to the cause of democracy.

The best previous time was that made on the steamer Wakana, which was launched by the same company in 52 days. The Caponka is 288 feet long, 46 feet beam and has a tonnage of 3600. She is the tenth craft launched by the Grant Smith-Porter firm since February 17.

## First Cherries Sold in Aid of Red Cross

SUISUN, April 25.—A shipment of two boxes of cherries, the first of this district, was made from the F. S. Jones orchard in Green Valley, this county. One box goes to Boston and the other to Chicago, where they will be sold at auction and the proceeds given to the Red Cross.

## House Reforms Urged in New Bryce Report

LONDON, April 25.—The report of Lord Bryce's committee on the reform of the House of Lords recommends that the house consist of two sections, one of 246 persons selected by

panels, or members of the House of Commons, distributed in geographical groups, and the other to consist of persons chosen by a joint standing committee of both houses of parliament. The number of these persons is recommended to be about one-fourth of the whole second chamber, excluding members ex officio.

"It's better to have some Red Cross certificates for something accomplished," declares Miss Ethel Moore, "than to run around with an exhibition of buttons on your chest." Miss Moore, an Oakland woman, is chairman of the Council of Defense and chairman of the Oakland woman's committee, Council of National and State Defense, ought to know.

So this Red Cross or somebody or something is being urged to open a germ proof and spotless kitchen in the center of town where the women who will gather in small groups and learn the lore which war days are teaching them they ought to learn. The hand that mixes bread today is the hand that will rule the world. Nor is there anything but the deepest truth in that statement. Changes in diet and ignorance in the values and possibilities of substitutes have a deeper bearing upon the health of the people who must remain at home. The work of the dietitian is of great importance not only to the woman who would make it her profession, but the lay woman who remains the mistress of her family.

So it is the dream of those who realize how great a necessity knowledge of food and food values is that in the center of town there will be equipped a modern kitchen where will be taught the things which will preserve and conserve the health and strength of the national family life. The work is really quite simple and may be acquired without much effort. It is given proper kitchen where women can learn. The great trouble has been that there has not been enough to teach. So with the establishment of the educational work which the woman's committee is requesting of the local Red Cross, a new opportunity would be opened to the students who complete the necessary courses themselves to become teachers.

Fifty tables have already been reserved for the large card party which the 2d of May will bring, when Mrs. Robert Lewis Hill opens her picturesque garden and home on the Alameda beach. Mrs. Hill and her husband, Mrs. C. L. LeVoor will be hostesses of the day, uniting in the effort to gather the little treasury which means the share of their teams toward the current expenses of the Oakland Club and its philanthropic work. While cards will be a feature to those who love cards, the beautiful gardens will give the setting for the tea for which those who do not play the popular game are invited.

Why boys and girls sometimes leave high school is one of the questions to which the members of the Parent-Teachers Association in the Technical High school have found answer. When the truth came to them that there were students aplenty who came to classrooms shabby, in old shoes, they were obliged to close their books in despair because of the state of the pupils. The industrial grind of untrained hands and minds, they determined that inasmuch as they were able this should not happen in the great Broadway institution of learning. Hence it came about that the youngsters fund was founded. It is quite separate from the loan fund. It demands no return. All that it is designed to do is to keep boys and girls in school, to give them a new start and a new charge. If the clothes are shabby, perhaps the student receives a new suit. If it is shoes which are worn, some morning there is the surprise in the new pair. There are breakfasts and luncheons and off times help with a more permanent nature. And there is, too, the employment bureau. The Parent-Teachers Association does not tell of these kind deeds which it is relieving in doing. But now the fund is depleted. It needs rebuilding. That is why today on the lawn of the school was held a food sale, with all manner of dainty, substantial dishes offered by the generous-hearted mothers to whoever might buy. There are plans in the making for further increasing the fund, and which is so greatly needed. The best that can be said of it is that it is giving the boys and girls a chance and keeping them in school.

Mrs. Oscar Sutro's handsome home high up in the Piedmont hills, commanding a slightly view of the entire bay region, has been the scene of a social gathering to be opened on Saturday evening to all the regular and reserve army and navy officers stationed here. One of the charmingly appointed affairs which the week brought was the luncheon over which Mrs. Charles Houghton presided yesterday at the home of Mrs. Houghton. Her friends to assemble in honor of Mrs. William Harbour. Spring was in all the appointments of the dainty function. The occasion was by way of farewell to Mrs. Harbour who is leaving next week for the Atlantic coast, with an anticipated visit to her son and his bride, who are so happily established in an attractive home in Toronto.

Out in the Garfield school the youngsters, who have about 60 per cent of the local homes, are enthusiastically putting in all the hours that can be begged or borrowed getting into shape that can-covered and badly abused piece of ground which within a few weeks is to be turned into a war garden. "Garfield Day" is to be arranged shortly with a splendid celebration, perhaps a procession.

For Friday afternoon, May 10, a music festival along the lines of the Garfield school is to be presented. Robt Hood play is to be presented. The evening, with all the classes represented in the big hall, war funds and their demands are giving inspiration to the benefit.

Garfield school children have sold more than 2500 copies of their Liberty Bonds.

CHAPTER LXXXV.  
IS MADGE BLIND?  
(Continued From Yesterday.)  
I awoke Sunday morning with the sensation of something heavy hanging over my head. It was not yet daylight, and I lay for several minutes trying to remember what it was that was oppressing me.

Then it came to me. This was the day when Jack was to land in New York after a year's absence. I had three things to do during the day, each of which held possibilities of untidiness.

I must telephone Jack at his old hotel, for he would not know where to find me. I dreaded immeasurably to do this with the possibility of Dicky in the room.

I must leave Dicky to go to Lillian Gale's dinner alone while I dined with Jack.

I must break the news to Jack that during his year's absence I had met and married Dicky.

By a tact understanding neither Dicky nor I had mentioned his coming since Wednesday, when he made the scene about it before Lillian. He had been repentant then for his outburst, but I feared another when I should telephone Jack.

However, it would be hours before Jack would reach the old-fashioned little hotel in the Greenwich "Village" section, where he had kept rooms for years. I must wait and try to go to sleep again.

But I found it an impossible feat. I tossed and turned until the first rays of sunlight came through my open window, and I heard Katie stirring in the kitchen. Then a possibility of which, queerly enough, I had not thought of before, made me spring from my bed, shiveringly shut the window and dressed rapidly. The rooms were so cold I was glad to omit my usual shower.

In his letter Jack had asked me to telephone to his "old diggings," knowing the possibility that I might have left my boarding house. But the thought had never struck me before that he might telephone Mrs. Stewart, with whom my mother and I had been so long, to find out if I were still there.

If he did so she would, of course, tell him that I had married while he was away.

OFF TO MRS. STEWART.  
In some ways I must get word to Mrs. Stewart not to tell Jack that I was married. I could not telephone such a message to her. Perhaps if I hurried I could get to her home and back before Dicky awakened. On Sundays it is his custom to sleep late.

I went to the kitchen, where Katie looked at me in astonishment. She had just returned from the early service which she attended every Sunday morning.

"You seek, Miss Graham?" she asked anxiously. "You up so early?"

"No, Katie, but I have an errand to which I must attend this morning. I think I shall be back before Mr. Graham wakes up. If he should inquire for me tell him I have gone for a walk and will be back soon."

"All right. I'll fix breakfast right away."

"I only want coffee and a roll, Katie."

"Fetch foolish talk," Katie returned. "I'll fix breakfast, you eat."

Somewhat, Katie's matter-of-fact brusqueness relieved the tension of my nerves. I did up my hair, bathed my face and hands and finished dressing, then went to the dining room where Katie had laid my place.

I ate a very satisfactory breakfast. Then, putting on my outer garments, I let myself quietly out of the front door and walked swiftly to the nearest station of the subway.

I had quite a long journey before me. Mrs. Stewart, in whose home my mother and I had boarded for so many years, lived in a rambling big house in a quiet section of Brooklyn, near Prospect Park. I left the subway at Brooklyn bridge, where I boarded an elevated car which would take me within three blocks of the old place.

As I walked those three blocks memories of my mother and of the quiet years we had lived in the house to which I was hastening came back to me.

I felt a gully little pang that I had once gone to see my old landlady since my marriage. I felt it still more strongly when the maid having admitted me, I found Mrs. Stewart in the little sitting room which had been her mother's and mine.

"And is it yourself at last?" she asked reproachfully, even as she kissed me heartily. "I thought you had forgotten me entirely, so I did."

"You know I could never forget you, Mrs. Stewart," I said, feeling a very hypocrite as I spoke. I dreaded to tell her that it was not my wish to see her but my desire to obtain a favor from her that prompted my early visit.

"Of course, you're going to stay to dinner, and why didn't you bring your husband along?" She shot the questions at me in the rapid fire fashion I remembered. I mentally braced myself to tell her the truth.

A PROMISE AND A HINT.  
"Dear Mrs. Stewart," I said, taking her hand. "You must forgive me, but I came today only on an errand, and I must go away again almost at once. I am coming to spend the day with you very soon, however."

"I thought it was too good to be true if you had come all this way just to visit a poor old woman," she said shrewdly. "But that's all an old woman has any right to expect from a bride. They're thoughtless creatures, brides."

"I am none too kind myself, and I know," I laughed heartily, then patted my shoulder.

"Out with it, whatever you want of me," she said. "You know I'll do anything I can for you."

"I remember," I began.

"Do I remember him? God love him, I should say I did remember him," she answered me, then with another shrewd look at me. "Why?"

"I know he went away to South America a year ago, just after mother died, and before I had ever met Mr. Graham."

She nodded. It was never her way to waste words back today. I had a letter from him a few days ago, saying so.

"I forwarded it to your address myself."

"Yes, and I thank you for doing so," I answered, because he said, "But you see, he doesn't know anything about Mr. Graham, doesn't dream that I'm married, and I—"

"You want me not to tell him if he calls you up here?"

"You are positively uncanny, Mrs. Stewart," I cried. "How did you guess it?"

"How could I help guessing it?" she retorted. "But you needn't have worried. I wouldn't have told him anyway. That's a surprise. I wouldn't want to be the one to hand to Mr. Jack. I'd wish you joy of your job of telling him."

"Why, Mrs. Stewart, whatever do you mean?"

"None are so blind as those who will not see," Mrs. Stewart returned cryptically.

Her words lingered in my ears long after I had left her with the understanding that if Jack should call her up she would simply say I had moved and given him my new telephone address.

Why did she call me "blind"?

# Secrets of Health and Happiness

by Dr. Leonard Keene Hirschberg  
A.B., M.A., M.D. (Johns Hopkins University)

**Quarantine Whooping Cough**  
Weather conditions at this time of the year are so uncertain that every precaution possible must be taken to safeguard your child from that obnoxious "cough." If you catch the child's cough getting heavier and heavier, and if you notice that it becomes more and more prolonged, you may expect, perhaps, at the end of a week or so, a regularly developed whooping cough.

Whooping cough is caused by a definite kind of bacteria and is easily communicated from child to child. To speak comparatively, it is about as contagious as measles, but perhaps more serious. In the first place, it is a disease for children who are fortunate enough to have what is known as a "mild" case of whooping cough. Although this may be true of measles, it cannot often be said of whooping cough, because this usually, by its very nature, involves much strain and energy for every effort to cast out of the body the mechanism the impurities and poisons which impede its operations.

Not only does whooping cough entail suffering, but the diseases it is apt to leave behind it are, perhaps, more to be feared than the malady itself.

Whooping cough is very apt to leave the sufferer predisposed to infectious ailments. The inflammation of the bronchial tubes may become so serious as to lead to a disease of the lungs. Deterioration, then, not only of the lungs but of the human machine, may be the result. It is sometimes hardly possible to keep pneumonia from becoming fatal.

In some instances the child is apt to recover from the complications caused by whooping cough, yet to contract with such an abnormal mechanism that the little sufferer may be too weak to fight disease bacteria. Thus very frequently such a child succumbs to tuberculosis or some other serious infection.

**INFECTION IS EASY.**  
Whooping cough usually plays its most wicked role in the weaker mechanisms of children under one year. These little tots have not yet built up strong constitutions, and for this reason children must be particularly isolated from older ones who cough, whether their condition indicates only a "cold" or something more permanently dangerous.

Two, three and four year old children and over sometimes become little pests because they don't often like to mind their elders and keep away from a fascinating little "baby brother" or "baby sister" who is coughing.

A kiss, however, is not the only means by which a child infected with whooping cough can infect another. If sufficient care is not exercised to guard the sputum of the youngster, disease germs may be come scattered through the atmosphere of the room, and if in that neighborhood another child is present, he or she may catch the disease.

Under one year of age, it is apt to fall an easy victim.

In the past fifteen years there has been practically no decrease in the number of infants who have succumbed to whooping cough; whereas, the number of baby victims of tuberculosis diphtheria, diphtheria and scarlet fever has been steadily decreasing.

As I walked those three blocks memories of my mother and of the quiet years we had lived in the house to which I was hastening came back to me.

I felt a gully little pang that I had once gone to see my old landlady since my marriage. I felt it still more strongly when the maid having admitted me, I found Mrs. Stewart in the little sitting room which had been her mother's and mine.

"And is it yourself at last?" she asked reproachfully, even as she kissed me heartily. "I thought you had forgotten me entirely, so I did."

**Sophomore Dramatic Evening at Mills**  
The annual sophomore dramatic evening at Mills College will be held tomorrow evening at the gymnasium on the campus. "The Little Dove," by Margaret Scott Oliver, and "The Neighbors," by Zora Gale, will be presented. "When Angry Count One Hundred," will be offered as an interlude.

The cast for "The Little Dove" includes Helen Colgan, Dorothy Claf, Doris Dozier, Katherine Radcliffe, Gladys Small, Marie Wren, Luella Loy, in "The Neighbors" are Lucile Ernst, Rathbone Mills, Jessie Irvine, Marion Hendrick, Mary Yafe, Doris Powers, Sally Cummings, Betty Lytle and Evelyn Johnson are the Man and Girl in the interlude.

The dramatic evening is to be given under the direction of Miss Marion L. Stebbins, instructor in spoken English at Mills.

**Secures Data As to Dismissal of Gier**  
In connection with the investigation of the dismissal of Col. Theodore Gier from the Alameda County Development Board by the county supervisors, J. W. Cavanagh, assistant to the secretary of the state senate, has made a copy of the record of the dismissal from the minute book of Clerk J. C. Holland. Cavanagh would not explain the purpose of his visit to the clerk, nor at whose instance he took the transcript of the record.

## HOUSTON, TEXAS, SHERIFF COMES OUT FOR TANLAC

"Money Could Not Buy the Good It Has Done Me," He Says

"Money could not buy the good Tanlac has done me, and I gladly recommend it for what it has done in my case," said Hon. Noble R. Anderson of Houston, Tex., sheriff of Harris county, recently.

Mr. Anderson is unquestionably not only one of the best known, but one of the most popular, men that ever held public office in the "Lone Star" State. After serving as deputy sheriff of Harris county for twelve years, Mr. Anderson was elected chief of police of the City of Houston. He had occupied this office only a short time when the sheriff of Harris county died. Mr. Anderson's friends then persuaded him to make the race for unexpired term of sheriff, to which he was easily elected. He was honored with re-election seven different times and served the people in this important office for fifteen consecutive years. During those years Mr. Anderson declined re-election and retired to private life. He cast his lot among the people of Houston and is a large property owner and foremost citizen of this interesting and prosperous city.

"I was in a run-down condition," continued Mr. Anderson, "and had no appetite at all. I could hardly sleep at night and never felt like getting up in the morning. I was so tired. I had the worst form of indigestion, suffered all the time from gas on my stomach and was continually belching up undigested food. I had to take my coffee without sugar, as when I drank it with sugar I would just belch for hours. I would blot and sweat up like I was poisoned and suffered from neuralgic pains of the worst sort, and nothing seemed to help me, only in a temporary way. I just can't tell you how I did suffer for the past four years and up to the time I began taking Tanlac, a few weeks ago.

"When I read the testimonials of some who had been relieved of troubles like mine, I just felt like I couldn't make a mistake by taking Tanlac, and it has done more for me than I had expected. I began to feel better after taking my first bottle and have just now started on my third, and I am a different man already. I sleep like a log now and eat just anything I want without the slightest discomfort afterwards. I am glad to endorse Tanlac because it does the work, and I am telling all my friends just what I'm telling you. I never felt better in my life than I do since taking Tanlac. I am willing for you to publish my statement and let every suffering person who may wish benefit by my experience with this great medicine."

Tanlac is sold in Oakland and San Francisco by The Owl Drug Company—Advertisement.

## Oakland Shipbuilders Ready For Big Liberty Bond Rally

Preparations for one of the biggest Liberty Loan rallies yet held are being made by the Shipyard Athletic Association. Among the attractions will be these fifty pounders, Tiny (left) and Buster Anderson.

## Music by Seven Bands to Feature Entertainment in Auditorium Saturday Night

With 80 per cent of their number contributors to the third Liberty Loan and an even better record in sight, Oakland shipbuilders are going to do some tall things for their own and the city. Bonds of a rally under the auspices of the Shipyard Athletic Association, in the Municipal Auditorium, Saturday night. Thousands of men from each of Oakland's big shipyards will take part in assisting the Liberty Loan drive. Led by sailors from the Tevis, Eugene, naval training station and bands playing patriotic music, they will march to the auditorium through the downtown streets.

Entertainment that should fill the big arena is being arranged by the shipbuilders' committee in charge of the affair. Among the attractions are a punch line message on the third Liberty Loan.

## English Life During Wartime British Women Set Good Example

ARTICLE IV.  
BY JUDSON C. WELLIVER.

The doctor, when he got into the car one day after I had sent emissaries to find him, said it was lumbago. By that time I had got used to it. Finding a doctor in England, these times, is about as easy as making a Belgian believe a Hun promise.

Doc gave me some pink medicine, told me to lie still, and forbade smoking. I rather liked the taste of the medicine, and couldn't possibly have got out of bed; so I made a 66-2-8 per cent record for obedience.

An hour after he had left the manager of the apartment house dropped in to say that I must vacate tomorrow; government had requisitioned the building for the air force. No excuses would go; government didn't recognize lumbago.

"But I'll die if they chuck me out on the town," I protested.

"Don't do that without making sure your sugar will be found," replied the heartless minion, taking my last cigarette. "You know that must be turned in to the registrar's office in completing proofs of death and getting a burial permit."

Which wasn't humor; plain fact. Dead men's sugar cards mustn't help live ones sneak up on a double supply.

LIFE IN WARTIME.

My Macedonian call for help presently brought in a dear old lady whose family I had known slightly. With the aid of two ancient porters and a Greek boot-black who understood no English, she was bundled out of the place and into a taxi cab. The lady would have nothing less than that I go to her home, and there she and a son home on leave from "out there" cared for me till I was well. In a shell-hole twenty hours, finally crept back to his own lines, and was now in a convalescent hospital at Chester. The third was a husky chap who, having gone to Canada several years before the war, had joined a Canadian regiment, served in a hospital in France. The three sons were all in the army. One had been shot through the shoulder and laid up several months, but was now back in the line. Another, a boy still under 18, had been blown full of shrapnel fragments, later a shell-hole twenty hours, finally crept back to his own lines, and was now in a convalescent hospital at Chester. Simply moisten your hair with water and rub it in. One or two tea-spoons will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

## POOR'S VICTORY FILLS PROPHECY

By LAURA BRIDE POWERS.  
The triumph of a painting at the Spring exhibition of the San Francisco Art Association at the Palace of Fine Arts has spoken. Incidentally, the decision, which bears the earmarks of a compromise measure, appears doubly.

First prize of \$100, won by Henry Varman Poor on "Winter in the Rockies," adjudged the best painting in the competition.

Charles Templeton Crocker prize of \$100 for best figure painting awarded to Clark Hobart, a portrait of Miss Young.

Gold medal for painting, won by Joseph Raphael, "The Pool," the honor canvas.

Silver medal, Armin C. Hansen, on "Beat the Money."

Bronze medal, Anne Bremer, "Soul Life."

Drawing, silver medal, Armin C. Hansen.

Water color painting, silver medal, Gaudin, "The Pool."

Sculpture, gold medal, Ralph Stackpole, nude for fountain.

And thus in the decision the jury—Gottardo Piazzoni, Leo Lentelli, E. Spencer Maclellan and Hermann Rosse—has pronounced the tension that precedes the big pronouncement.

CONFIRMS EXPECTATIONS.

The winning of a prize by Henry V. Poor was no measure, a confirmation of current opinion based upon the fact that he is the dominating factor in the art expression of California, voicing the spirit of the ultra-modernists—the Cubists—whose ultimate aim is truth.

In "Winter in the Rockies," the young realist has given a rugged statement of a lake held in the heart of the snow mountains, a virile presentation of one of the noblest aspects of nature, with which the painter was obviously in rapport. He gloried in the tints of the white mantle that enfolded the rugged earth about him, and with a broad brush stroke he tells the story—crudely but eloquently.

Thus who adheres to "style" painting, the award of a prize, little pleasing to the source of CONGRATULATION.

But to the layman who approaches the canvas with the spirit of the painter, the acquisition of "Winter in the Rockies" as a permanent possession of the San Francisco Art Association—which the award involves—is a source of congratulation both to the painter-folk and the man-in-the-street, although it may take the last named a day or two to become adjusted to the Poor manner. But that is part of his education, and the reason that lies back of the creation of the Emanuel Walter Fund, from which the award is made.

The awarding of a prize to Joseph Raphael, formerly a San Franciscan, now living in Europe, was a recognition of one of the best exponents of the impressionist school that America has produced.

The new man to win honors is Godfrey B. Fletcher, who for a time was a pupil of Armin C. Hansen.

Loyalty Display Causes His Release

Joseph Stevens, a member of the Oakland local of the I. W. O. of L. arrested at Sacramento in connection with the alleged I. W. P. plot to blow up Governor Stephens' mansion, had the indictment against him dismissed yesterday by Federal Judge James T. Doyle at the request of Assistant United States Attorney J. H. Johnston. Stevens' loyalty, according to Johnston, was the reason for the action taken by the government.

It being found that he had purchased \$1,000 worth of third Liberty Loan bonds and had expressed a desire in letters he had written to friends to go "over there" and do his "bit."

# PAY TOO LOW IS COMPLAINT OF PRINCIPALS

**BERKELEY, April 25.**—That principals of the fourteen elementary schools in Berkeley are underpaid and that their salaries make living difficult under present conditions was the main theme of a meeting of school educators appearing yesterday before the Berkeley board of education to ask for an increase in salaries beginning with the next school year.

According to Miss Frances Morse, principal of the Berkeley school of John Innie, principal of the Le Conte school, who appeared before the board in behalf of the principals, the Berkeley elementary school heads are paid from \$2,000 to \$2,500 a year, \$1,000 less per year than the principals in Oakland, Alameda and San Fran-

**FIGURES ARE SHOWN.**  
Instead of a sliding scale apportioned according to the number of rooms in the various schools the principals ask that but two salaries be paid, one providing for the smaller schools and the other for all other cases.

Imrie cited figures which showed that the maximum elementary principal's salary in San Francisco was \$2400, while Oakland paid a scale ranging from \$1500 to \$2400 and Alameda's from \$2000 to \$2200. In Berkeley it cited the lowest salary was \$1500 and the highest \$2000. The present Berkeley scale for elementary principals is:

Buildings of 9 rooms and under

While admitting that Berkeley's scale was unjust to the teachers, members of the board declared that they saw no relief in sight unless an increase in the school budget was granted either by the supervisors or the

"We are powerless to act unless more funds are forthcoming to meet any increases we may decide upon," was the statement of President Roy L. Wopsey. A special conference of the board was arranged for Friday night, however, to go more thoroughly into the request of the principals and to devise ways and means of meeting an increase in salaries.

...of other salary schedules, including that of the intermediate teachers, will probably also be considered by the board at the conference.

### **Woman Arrested for Seditious Talk**

Because, according to neighbors, she had attacked the President in Italy on

posed to Irish conscription, Marie Oline was today lodged in the city prison, en route to the custody of the United States marshal. A presidential warrant will be issued, according to government operatives who interviewed her after she had been arrested. Complaint by citizens who had heard her talk attracted the attention of federal operatives to her case.

## SAN JACINTO IS ROCKED BY NEW QUAKE

SAN JACINTO, Cal., April 25.—Two more earthquake shocks occurred during the night, one at 8 p. m. and the other at midnight. No damage was done, but the severity of the earlier tremor caused many people to run out of buildings and houses. The second shock was felt plainly, but caused no excitement.

Work on the wrecking and salvaging of buildings and homes here and at Hemet destroyed or damaged by Sunday's earthquake shocks.

Relief work was being organized and a survey being made of individual losses to aid in the distribution of funds already contributed and expected to be raised through the American Red Cross. The relief work was put in the hands of the Red Cross and a salvage committee jointly.

## VINOL CREATES STRENGTH

Positive—Convincing Proof

It is all very well to make claims, but can they be proven? We publish the formula of Vinol to prove the statements we make about it.

Formula: Cod Liver and Beef Pan-tones, Iron and Manganese Peptonates, Iron and Ammonium Citrate, Lime and Soda Glucosaccharates, Casein.

Any doctor will tell you that the ingredients of Vinol as published above, combine the very elements needed to make strength.

All weak, run-down, overworked nervous men and women may prove this at our expense.

There is nothing like Vinol to restore strength and vitality to feeble old people, delicate children and all persons who need more strength.

Try it. If you are not entirely satisfied, we will return your money without question; that proves our fairness and your protection. The Owl Drug Co., Oakland, and at the best drug store in every town and city in the country.—Advertisement.

## THERE WAS A DAY NOT LONG AGO

When Few Women Used Face Powders, Creams or Cosmetics

Now, almost every woman uses them—and without concealment. It is conceded that she has the right to retain her youthful look as long as she can. For this reason, many women of unquestioned refinement now use Q-ban Hair Color Restorer to retain the youthful beauty of their hair. If your hair is gray, streaked with gray or faded, you, too, can bring back all its natural color with this simple, harmless preparation.

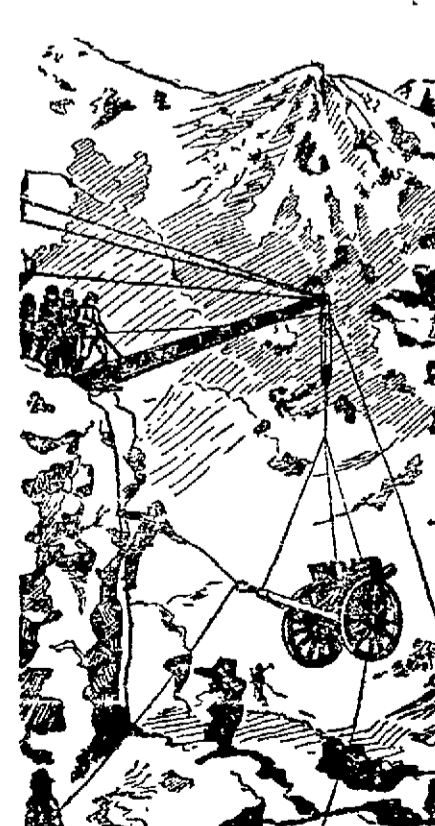

Q-ban is not a dye. You can prove this by trying it on your combings. Dyes will color them, but Q-ban leaves them unchanged. It is a wonderful and delightful toilet requisite which keeps the hair glossy and youthful. Does not stain the scalp, or wash or rub off, and does not interfere with washing or styling the hair. Removes dandruff and keeps the scalp healthy. Easily applied.

Sold by all druggists everywhere on Money-Back Guarantee. Price 75c.—Advertisement.

## FIGHTING IN THE AIR!

It takes stamina, strength and courage to climb mountain peaks in face of the enemy and fight in the air. It takes good red blood to make a courageous and brave soldier. A "slacker" or a coward might have the best intentions in the world but with thin and watery blood he has no stamina or courage. At this time of the year it's well to clean house—to put your house in order by building up the body. You want to be red-blooded enough to play your part. Many diseases of the blood show themselves, as a rule, chiefly by stomach trouble and general weakness.

For an invigorating tonic which will clarify the blood, put new life in the body, give sparkle to the eyes, and a wholesome skin, nothing does as well as a glyceric herb extract made from Golden Seal root, Blood and Stone root, Oregon grape root and Wild cherry bark. This can be had in convenient, ready-to-use form at all drug stores, in tablets at 60c the vial, and has been sold for the past fifty years as Dr. Pierce's Golden Medical Discovery. By reason of the nerves feeding on the blood, when the blood is pure the nerves feel the effect, and neuralgia or other nerve pains disappear because such pain is the cry of the starved nerves for food. ## Ten Thousand Attend Huge Loan Rally at Auditorium

BILL HART being greeted by Joseph King of the Liberty Loan Committee when the actor arrived in Oakland to make a "Buy-a-Bond" speech. The insert is MADAM STELLA JELICA, who sang at the rally in the auditorium.

### Senator Kenyon and Bill Hart Speakers at Meeting

Ten thousand men, women and children of Oakland attended the Liberty loan rally held in the Civic Auditorium last evening and listened to the patriotic addresses by Senator W. S. Kenyon of Iowa and William S. ("Bill") Hart, the motion picture actor.

The gathering was one of the most patriotic ever held in this city, the audience being figuratively "up on its toes" every moment. Applause after applause in great waves swept the hall.

Both Hart and Senator Kenyon made fervent appeals to the people of Oakland to buy Liberty bonds and Senator Kenyon called attention to the poor showing Oakland had made in the present Liberty loan drive. In part Senator Kenyon said:

**HOW MANY HAVE BOUGHT?**  
"With all these cheers I have been wondering as you cheer for these magnificent boys of the navy, how many people who cheered had bought Liberty bonds. That may be unkind, but I wondered a little about it when I read in the paper tonight that Oakland with 60 per cent of the time gone by had subscribed 45 per cent of the amount allotted to Oakland. "These boys in the navy cannot fight without provisions and ammunition. The boys in the army cannot fight without them. This war cannot be carried on without money and the only way to raise money is by taxation and by Liberty bonds. I hope the old State of California is going right over the top on this matter, as she has on every other war question, and my friends, I wish the Kaiser could see some of these American audiences that we have

been seeing, that I have seen from the Atlantic Coast to the Pacific. He would get over the notion that the American people are not united, get over the notion that the American people cannot fight.

**MUST DO MORE.**

"We have done splendidly, of course, but we have not reached the point of sacrifice where it hurts us at all. But we will have to do it. We have got the motto of 'doing our bit' and so we put \$50 in a Liberty bond when we could put a thousand and then put a button on and walk around like a last year's rooster and say we have done our bit. That won't win this war. Let us get over that. It is the most unfortunate slogan that ever was invented. We have got to do more than our bit. If we don't care any more for our country than to do our bit this war is lost.

"Then we will find out. Some German statesman said that Germany would pay an indemnity of one billion dollars to the United States. We will find out then, and I want to see the collection agency that ever has been invented to come over here and collect that money.

"We have got to do our best. Yes, more than that. We have got to do our damnest, to win this war.

"We sit around in our snug complacency and say, 'It cannot come to us. Let some one else do it. Let some one else buy the bonds. It cannot touch us.' Ah, don't be too sure of that. It may not be probable that it won't reach this far, but any invasion of our country at all would strike a death blow at our whole country.

"Do we realize what this awful thing is that is trying to capture this war? Fierce, brutal power, lust and greed to rule by war instead of justice. And if they rule Europe and if they break down France and England they will rule because autocracy and democracy cannot continue to exist in the world side by side."

**MAKE DOLLARS FIGHT.**

"I can't go myself," said Hart, "but I can make my dollars fight for me. With the knowledge constantly in my mind of the great sacrifice the boys are making in France I could not keep a single dollar in my pocket that I do not absolutely need. I want you, every one of you, to feel as I do that there is no sacrifice that is too great for us at home to make. We must buy Liberty bonds, buy them until it hurts us, and then buy still more. It is the only weapon that we have and we must use it unsparingly, with the idea that we are on the battlefields fighting the foe face to face. We can't win this war in any other way. And we have got to win, or perish."

Joseph E. King, executive chairman of the local Liberty loan committee, presided during the evening. Madame Stella Jelica, the California prima donna, opened the meeting by singing the "Star-Spangled Banner." The audience was led in the singing of the chorus by Alexander Stewart. The Marine Corps band played and several vocal numbers were sung by the Marine Corps quartet.

## MINNESOTA LOYAL, SAYS BURNQUIST

ST. PAUL, Minn., April 25.—Governor Burnquist has issued a statement defending the loyalty of Minnesota citizens, particularly referring to those of Swedish extraction.

The statement mentioned the recent speech of John F. McGee, of Minneapolis, a member of the state public safety commission, who declared before a congressional committee that there are many disloyal residents in the state.

"Judge McGee did not represent the safety commission nor the state administration at Washington," declared the governor's pronouncement.

A petition was sent to the governor today asking that he remove McGee from the state public safety commission, according to a statement given out at the office of A. C. Townley, president of the National Non-Partisan League. The petition was signed by the "executive board of the St. Paul trades and labor assembly," as well as by league officers, the statement declared.

## FLANNERY TRIAL BEGINS TODAY

SAN FRANCISCO, April 25.—The trial of Horace P. Flannery, former president of the police commission here and prominent cafe owner who was indicted on a charge of conspiracy with Thomas Gim-mel, his bartender, to sell liquor to soldiers, was begun before Federal Judge Maurice T. Dooling today.

According to Assistant United States Attorney Patrick H. Johnston, the government will seek to prove that Flannery, in July and August of last year acknowledged and conspired with Gim-mel in the sale of flask whiskey to various members of the army intelligence bureau at his saloon, the Richelieu, Geary and Market streets.

An outgrowth of the indictment the saloon was closed by the police commission and Flannery sent to the Livermore sanitarium by Federal Judge William C. Van Fleet when the government

by feigning illness. Flannery is wealthy and a large stockholder in the California Wine Company, and is locally a prominent politician.

### Chain Gang Waits for Kaiser-Hochers

Unless the Supreme Court comes to the rescue of the ten Kaiser-Hochers today, they will go on the city chain gang tomorrow morning, according to Chief of Police Neddaman. Counsel for the ten prisoners is considering an appeal to the Supreme Court from the order of the Appellate Court denying the writ of habeas corpus sought there last Monday. Should the higher court decide to hear the application and grant an alternative writ bail could be fixed pending the hearing. Unless this happens by the time the chain gang leaves the city hall in the morning, the Kaiser-Hochers will be engaged tomorrow making little ones out of big ones "somewhere in California."

## ALLIES CONSIDER TONNAGE POOLING

WASHINGTON, April 25.—Pooling and operation by an inter-allied shipping board of all tonnage now operated by the United States, Great Britain, France and Italy is being fondly discussed by those nations.

Distribution of tonnage as the war sweeps into its most desperate stage is becoming more and more a vital factor in the outcome. Differences of opinion as to whether food supplies or men should have priority have caused vast confusion in recent months with the rapidly changing situation in France. Official diplomatic advice today announced a meeting of the inter-allied economic committee of France yesterday to discuss the question of tonnage distribution.

The pool plans would bring the same co-ordination in the shipping shortage that was brought on the western front by the concentration of General Foch as generalissimo of allied troops.

## HUSBAND FREED OF CHARGE OF MURDER

SAN FRANCISCO, April 25.—The charge of murder made against George P. Kinney, prominent mining engineer of Miami, Arizona, was dismissed by Police Judge J. J. Sullivan today. Kinney, who surrendered himself a few days ago to the police, was wanted on a warrant charging murder growing out of the death of William Althouse, who died March 10 as a result of a beating administered by Kinney in the Hanza Hotel here, New Year's eve. Kinney claimed he found his wife and Althouse together.

### Convicted Soldiers' Cases Up to Wilson

WASHINGTON, April 25.—The war department today submitted to President Wilson for final action the two court martial cases involving the serious offense of sleeping on post in France, and two others for disobedience, understood to have been refusal to drill. ## How Can You Tell Good Shoes Now

YOU come out of the average shoe store these days with a feeling of uncertainty about values. You can't help thinking that the clerk was rather vague about the facts—rather casual and indifferent.

He was entirely too general in his statements—you had to take too much for granted. The only certain way is to buy a shoe with a known and trusted institution back of it. The Regal Shoe Company has a nationwide reputation for dependability. It builds more into its shoes than mere appearance and selling value. Service, quality and shapeliness, lasting as long as the shoe holds together—are Regal qualities.

If you want a "cheap" shoe don't go to a Regal store. But if you want an authoritatively-styled, long-wearing shoe you'll find it in any of the fifty-four Regal metropolitan stores, or one thousand Regal Agencies.

Put on this Mincola Pump (illustrated here)—note the refinement in its lines and modeling—note the "La Petite" Tailored Bow of brown silk, the newest style feature—feel the "glove" soft brown calf-skin mould itself to your foot. Also to be had in black selected calf-skin with bow to match—plain toe. You can go a long way and not find a better pump at the price. . . . \$7.25

## TO CO-OPERATE WITH CITY ON EMBARGADERO

Acting upon suggestions made by the City Planning Committee of the Chamber of Commerce, the Parr-McCormick Steamship Line officials have directed their engineers to at once prepare sketches of the proposed development of Parcel No. 2 of the company lease which will provide for ready access through that portion to the adjoining city property to the north.

At a recent meeting of the planning committee a resolution was adopted calling upon the company officials to outline their plans in this particular.

Harry A. Laffer, chairman of the committee, in a letter addressed to Fred E. Parr, president of the steamship line company, set forth the views of the committee as follows:

"In accordance with a resolution passed by the City Planning Committee of the Oakland Chamber of Commerce at its last meeting, I am directed to address you regarding one phase of the development of property leased by you from the City of Oakland on the west waterfront.

**SHOULD BE OPEN.**  
"The committee deems it highly essential in the development of Parcel No. 2 that the Embargadero for belt line and vehicular traffic should be open so that ready access may be had to the area in the control of the city between the Union Construction Company and your property. It is believed that if this point, in connection with the lay-out of your leasehold, is cleared up, the situation will be very greatly clarified."

In replying to the request, President Parr today stated that his company courts criticism and suggestions and that they will be glad to work out the plans in accordance with the ideas suggested by the committee. His reply to Laffer follows:

"I will immediately request Mr. Ball to lay out Parcel No. 2 along the lines suggested in your letter of April 23d, and as soon as the sketch is prepared, I would like very much to discuss the whole matter with you and any representatives of your committee who might desire to attend such a conference as we are more than anxious to meet every sane constructive criticism, and I might add that this is the first and only such criticism."

**WELCOME SUGGESTIONS.**  
"If you or any member of your committee have any suggestions to offer as to how this sketch should be prepared, so as to permit of ample room for shipbuilding, I will be most

## Urge Bay Area as Music Site Local Musicians Favor Plan

Concerted action to have the bay region selected as the site for the western department of the proposed National Conservatory of Music is being planned by music teachers, educators and heads of civic and commercial organizations of Oakland, Berkeley, Alameda and San Francisco. The matter is to be taken up at tonight's meeting of the Alameda County Music Teachers' Association and also to be considered by the education committee of the chambers of commerce of Oakland and Berkeley.

The bill to establish a National Conservatory contemplates the creation of four branches, one for Washington, D. C., one for New York, one for Chicago and one for California. The bill has already received the endorsement of musicians of New York and Chicago and of the Musical Alliance of America. It has also been endorsed by musicians in Los Angeles.

**BERKELEY FAVORS PROJECT.**  
"Music is helping to win the war," said F. M. Shick, president of the Berkeley Chamber of Commerce. "The bay region is a natural center of music. It is the natural center of education for the West, and would be the most fitting location for a conservatory. It should be established."

"Every effort should be made to see that the bay region is considered in this matter if the bill receives favorable action from the House committee on education," said Mrs. James B. Hume, head of the Presidents' Club, an organization of the heads of the women's clubs of California.

"We have the best school music department in the country and some of the finest private preparatory schools for such a conservatory of music in this region," said Glenn Woods, director of music in the Oakland school department. "This is the place for the western branch."

"In making every effort of service to the war we need musicians," said Alexander Stewart, who is now in the service of the government in directing the First National Bank building in Oakland.

"All that we desire is a plan which is practical, along sensible and workable lines and which is practical and not merely theoretical, and in such an arrangement we are prepared to go into the matter in harmony with Mayor Leide and the members of the city council."

music in the army camps. "A national conservatory of music is needed, and now is the time to consider it. The bay region is the logical location for the western branch."

**HEARING NEXT MONTH.**  
The bill for the establishment of a national conservatory of music and music will be taken up at a hearing held about May 15. It was introduced by Congressman Bruckner of New York, but he is not now a member of the House of Representatives. It will be "fathered" by Congressman D. C. Oliver of New York, who has been referred to the House committee on education.

The bill provides that "there shall be established in the United States of America an institution of learning to be known as the National Conservatory of Music and Art, fostered and maintained by the Government of the United States of America. It is to be divided into four departments of equal standard, one in the District of Columbia, one in the State of New York, one in the State of Illinois and one in the State of California. It shall be erected, maintained and used for the purpose of educating pupils in instrumental and vocal music, and also in literature, composition and such other necessary attending studies and branches of music as will make students proficient in the general knowledge of modern and classic music."

## NO GUARANTEE TO SAVE FOOD SHIPS

AMSTERDAM, April 25.—Germany has given no positive guarantee that ships from neutral sailing within the next three months with grain for Switzerland will not be sunk, it is shown by a semi-official telegram from Berlin today.

It is impossible, says the message, to guarantee their safety before three months have elapsed, for technical reasons, as only after that time can it be certain that all German warships abroad will have received the order to stop the German Government vessels will sail under the American flag, the telegram says.

"Should any German war vessel not receive such order and sink one of the vessels the responsibility will not be upon the German Government, but upon the President of the United States of America."

## Change Flag Ordinance to Meet War Need

In order that the committee boosting the sale of War Savings Stamps and Thrift Stamps, which are sold at booths and hang twenty-five banners over the streets of the city, may amend an ordinance which now makes hanging of such banners a misdemeanor, the city council today decided to amend the ordinance.

An argument over the method to be pursued in the matter brought an expression from Mayor Davis and members of the council that the authorities should "wink" at the violation of the ordinance in this particular case as being a war measure. However, Chief Nodderman desired definite instruction and it was decided to amend the ordinance to meet the requirements.

## Pro-German Suspect Proves Bond Buyer

Albert E. Sederbust, a laborer living at the Y. M. C. A., was rescued by the police from a crowd of boys who attacked him near the municipal auditorium last night following a Liberty bond meeting when, the boys said, he made remarks indicating that he is pro-German. A large crowd had gathered, and Sederbust was about to ret a beating when the police interfered and took the subject of the attack to the police station. There, he exhibited a Liberty Bond and showed that he is about to be called in the draft. He was dismissed with a reprimand.

## Fired for Declining to Buy Liberty Bond

Alfred Cope, an employee of the Dow Pump Works in Alameda has lost his position because of his refusal to buy a Liberty bond. Cope is the second man to lose out at this plant for refusing to help the bond issue. No violence was offered Cope, but he was offered the alternative of buying a bond or quitting his job.

Cope based his refusal on alleged religious grounds, claiming that he was opposed to war that he could not conscientiously buy a war bond and help the war along to this extent. Cope came here from Canada.

## GETS JUDGMENT.

A judgment for one per cent of the \$50,000 sued for by J. W. Moravnik against Jacob Jantosky, owner of the Tenth and Twelfth streets free market, for false arrest and imprisonment on a charge of disturbing the peace, was given by Judge W. M. Conley of Alameda county, sitting in Judge Koford's department of the Alameda county superior court.

## CORN MAKES HER ILL.

SAN RAFAEL, April 25.—Mrs. Anne Morgan of San Rafael was seriously ill today following the eating of two spoonfuls of canned corn. The corn, when found unfit to eat, was given to some chickens and every chicken died within five minutes after partaking.

## INJURED BY AUTO TRUCK.

L. B. Boyer, 1708 Chestnut street, was knocked down by a motor truck at Eighth and Webster this morning, receiving severe cuts and contusions for which he was treated at the Receiving hospital.

## LIBERTY LOAN HONOR ROLL IS OPEN TO YOU!

This afternoon, tonight and all day tomorrow up to 3 o'clock in the afternoon efforts of the local Liberty loan committee will be concentrated in getting their membership list up to date.

Liberty loan, who are delinquent in the matter of "clearing" their subscription cards, to go to their banks and either pay in full their bonds, or to make their monthly payments on them.

Great stress has been placed by the committee upon the necessity of doing this, because those who desire to have their names included in the "Liberty Loan Honor Roll," which is to be published in next Monday's paper, must have called at their banks before closing time tomorrow afternoon. Up to the present time thousands of persons residing in this city, and whose subscriptions to the third Liberty loan have appeared on the third in good faith, have so far failed to call the committee, to go to their banks and take their subscription cards.

The following statement shows the latest changes in the figures for Alameda county:

Town	Quota	Sub't'n
Oakland	5,890,175	\$2,751,650
Berkeley	1,189,125	1,350,580
Alameda	1,175	310,560
Livermore	1,175	310,560
San Leandro	214,125	200,550
Hayward	217,650	155,580
Castroville	1,175	310,560
Pleasanton	87,075	87,075
Alhambra	52,350	52,350
Irvington (Miss. Jones)	14,450	24,550
Emeryville	41,100	52,700

Totals.....\$9,442,500 \$5,593,980  
"It is the failure of the citizens of this city on a large scale to go to their banks and take up their pledge cards to subscribe to the Liberty loan, which is the cause of the delay in the Liberty loan committee this morning. Those who will have complied with this ruffing of the Treasury Department by not later than tomorrow afternoon will be included in the Liberty Loan honor roll." Those who fail to do so, will not find their names there.

"Not only will the honor roll which we are publishing show up just who are the patriots of this city, but it will also let everyone know who make up the local Liberty bond slackers through the mere fact that their names are absent from the list. Viewed from this standpoint, the long list of names, which will be classified according to the amount of the bonds that have been purchased, will constitute a most interesting document."

## FOR SONG FESTIVAL.

Great preparations are reported to be under way for the song festival which is to be held in the civic auditorium tomorrow night, and which will mark the close of the Liberty loan campaign.

One of the most interesting features of the events which will be held on the program is the participation of 500 sailors and a band of 100 pieces from the naval training station on Yerba Buena Island, which will be sent to Oakland for the purpose of singing.

E. R. Durrell, commandant of the station, said the sailors will arrive in Oakland at 7:30 o'clock in the evening, parade to the Auditorium and there raise their voices in song and in the leadership of Charles C. Dunn, official song leader at Yerba Buena and Mare Islands.

Residues the sailors there will be a male choir of 300 voices, which will be one of the features of the evening's entertainment.

Fourteen blasts from the Liberty Hut siren yesterday registered the purchase of \$140,000 worth of Liberty Bonds by the electrical industries of the city. According to Hugh Kimball, who has been in charge of soliciting for this branch of the city's industries, \$70,000 of the sum was subscribed by the employees of the San Francisco-Oakland Terminal Railroad's, \$20,000 by the employees of the Oakland Mazda Lamp Works, \$20,000 by the employees of the Gas & Electric Company and \$20,000 by the employees of the smaller electrical dealers of the city.

According to Kimball five departments of the city have qualified as 100 per cent of the organizations. Five departments of the Oakland Mazda Lamp Works have qualified in a similar manner, also the Emeryville car shops of the San Francisco-Oakland Terminal Railroad.

**WILL REALIZE HOPES.**  
Kimball states it is the intention of the bond buyers of the electrical industries of the city to sell 5 per cent of Oakland's quota, which is practically \$350,000. Already the committee has reported a total of more than \$250,000 from that source, so it is generally believed that the bond buyers of the electrical industries of the city will realize their hopes.

Employees of the Judson Iron Works this morning reported the purchase of \$25,000 worth of Liberty Bonds. In addition to this, W. D. Bunker, president of the company, and the company itself, has purchased each \$5000 worth of Liberty bonds, making a total subscription from that source of \$35,000.

A so-called one-man tank arrived in Oakland today and will become one of the permanent attractions in the Plaza Square, where it will be raised upon a platform. The arrival of the tank in Oakland this morning from the Holt factories in Stockton was greeted with a small-sized parade, which formed at the foot of Broadway and followed the tank to the City Hall Plaza.

Notices were sent out this morning by the Danish auxiliary of the Liberty Loan committee, of which P. C. Fredericksen is chairman, and John G. Scott, secretary, of a meeting of Danes to be held tomorrow night at Danish hall, 144 Eleventh street, on which occasion a general report will be made of the activities of the committee in the Liberty Loan drive. It is believed that the meeting will be a success, inasmuch as the local Danes have been waging what has been reported to be an aggressive campaign among their countrymen.

The following local institutions have been reported as additional 100 per cent subscribers to the third Liberty loan by the Business Men's Committee: The Jaffe Wine Company, E. S. Schoening, Diamond Dry Goods Company, Pittsburg Water Heater Company, David Stone, M. Aboumarad, A. Remington, Otto Pleven, Corbett & Bayless, Snook & Church, The Maple Confectionery, Paulah Materson, William C. Clark, National Ice and Cold Storage Company, M. Mand Carter, T. F. Remover, W. B. J. J. L. Villa, A. Stacy, W. T. Rance, F. Della Vedova, Auto Electrical Service Company, The Tire Repair Shop, Mrs. H. S. Toler, Bell School of Shortland, Byron Maury, The City Window Shade Company, Nathan Berry, Oakland Brewing and Malting Company, Old Original Lager Brewing Company, H.

## AGE'S DEATH IS BLOW TO LOCAL MAID

The death of Captain Baron von Richtofen, "ace" of all German aviators, honored even by his opponents, brought to an end a romance which made the great war the background for the hopes and fears of a Berkeley girl well known in the bay region. She is Miss Margaret Perkins Hayne, daughter of Attorney Brewster A. Hayne, graduate of the University of California and gifted woman attorney, and close friends believed that she and this young German officer were engaged before this country and Germany went to war.

It was while Miss Hayne was traveling in Europe six years ago following the completion of her legal studies which acquainted her to the California bar that she first met Baron von Richtofen. During her stay in Berlin she was often a guest at the Von Richtofen home and an intimate friendship resulted between the attractive Berkeley girl and the titled German family. To the eldest son of the house, the young Baron von Richtofen, rumor has it, a closer affection than friendship was the result of Miss Hayne's sojourn in the German capital.

Miss Hayne denied today that she had definitely plighted her troth to the daring German aviator.

"I knew him very well while I was in Berlin, that is all," she says. "I also knew his mother and his brothers and sisters and I held a close friendship for the whole family as the result of their kindnesses to me while I was visiting in Germany before war was declared."

## NO WORD DURING WAR.

Miss Hayne stated that she had received no word from either Baron von Richtofen or other members of the family since United States had declared war on Germany. The news of the young aviator's death was the first she had received of him other than the stories of his daring flights told in the newspapers.

"Baron von Richtofen was a fine man and to me it is no surprise that the English honored him in the manner in which they did," said Miss Hayne's comment today. According to Miss Hayne, Baron von Richtofen was 35 years of age and before the outbreak of the war was in the regulations of aviation before war was declared. However, fitted for the most daring branch of the service, and with his country at war he immediately joined the Prussian aerial forces. He has two brothers both on the Prussian general army staff, and two sisters, both married and living in Germany.

**DAUGHTER OF ATTORNEY.**  
Miss Hayne, whose image friends declare the baron had constantly with him while on his daring flights, is a member of a prominent Berkeley family and is the daughter of Brewster A. Hayne, well-known attorney of San Francisco, residing at 2421 Piedmont avenue, Berkeley. She was graduated from the University of California with the class of 1908 and received her master's degree the following year.

Following the completion of her legal studies she opened offices adjoining those of her father in San Francisco, paying especial attention to cases concerning women and girls. For the last few months she has been on the faculty of Technical High School in Oakland.

## YOUNG SOLDIERS TO GREET OLD

Oakland's "chips of the old block," her young men in khaki and bay blue, who answered the call just as their fathers did, are going to welcome and cheer the old boys who helped make America a fighting nation.

Some through a dozen units, will pass in review before the men who are fighting today's battles, when the heroes of former wars come here as delegates to the department encampment of the Grand Army of the Republic, which will be pitched in Oakland from May 7 to 10.

There will be little time for reflection, sorrowful or otherwise, for the old soldiers will have to carry out their long programs with military precision and punctuality if they are to carry them out in scheduled time. From the moment of the arrival of the delegates of the G. A. R. and its women's auxiliaries, there will be parades, patriotic rallies and entertainment.

Members of the G. A. R. here are already preparing for the reception of the hundreds of delegates who will arrive from all parts of California and Nevada.

Today the board of directors of the G. A. R. in their club motto. The German will receive a strictly English translation, "I Serve," according to those who are wise in inside affairs.

## EBELL ASKS WAS FOUNDER ALIEN FOE?

Enemy alien or 100 per cent American? That is the searching question which is being put to the memory of Dr. Adrian Ebell, founder of a long line of organizations which bear his name. If Dr. Ebell was born in the United States, as many of his admirers maintain, and merely went over to Germany to round out his education, all well and good. But if, as others have been unkind enough to suggest, Dr. Ebell was born within the German domain, then must his name be wiped away from the dooms of the clubhouses which have been erected in his honor.

The controversy has started in Southern California, where Ebell clubs flourish, and has brought embarrassment to the women who are 100 per cent patriotic. According to Mrs. W. G. Ferguson, the newly elected president of the exclusive Oakland Ebell, this morning, the membership had not considered Dr. Ebell at all; in fact knew but little about him and had never heard of his name. It would be a disgrace to the club if it should bring to the forty-two-year-old organization a change in name when through their own half century they had made their own patriotic record and had established their own place before the world.

No ghost of Dr. Ebell, who has been dead these many years, haunts the Harrison-street clubhouse. "Ebell is incorporated under the laws of the State of California, and it would necessitate a legal process for us to consider such a change," declared Mrs. Ferguson.

But down in Los Angeles, where encyclopedias and ancient club records are receiving a good dusting and women are delving courageously into germs and microbes to discover the true status of the distinguished man who has so lasting an influence upon feminine development. The question must be answered. Upon the conclusion depends the future of a half dozen exclusive groups of women. For let it be proved that Dr. Ebell was surely a German subject and represented German Kultur and the whole of the California Federation year book must be changed whether or not the printer has yet set to work on it.

"If it is true that Dr. Ebell was an American," has declared Mrs. Chester C. Ashley, president of the Ebell Club in Los Angeles, "we will not consider a change in our name."

But down Long Beach way the conviction has grown that the distinguished man was not an American educated in Germany, but a German professor establishing himself in America. So the investigation is proceeding with several substitute names being suggested for the now questioned one of Ebell.

Today the board of directors of the G. A. R. in their club motto. The German will receive a strictly English translation, "I Serve," according to those who are wise in inside affairs.

## SERVICE LEAGUE HOLDS MEETING

At a meeting of the War Service League last night, at which twenty-five district clubs affiliated with some 139 organizations were represented,

The league in passing the resolution calling for conservation pointed out the imperative need for saving the land. The first measure it called upon the clubs affiliated with the league to pass similar resolutions and secure the pledges of the various organization members to a campaign of conservation.

The monthly meetings of the league were discontinued in favor of the daily meetings in the school houses of the various districts.

## Greenhouses Ordered to "Hooverize" Fuel

WASHINGTON, April 25.—The fuel administration has issued an order curtailing consumption of fuel by greenhouses 50 per cent for the coming year. The restriction applies to all greenhouses, whether in public places, and will affect the White House greenhouses and the botanical gardens here under a strict interpretation. Many famous greenhouses on private estates likewise will fall under the ban. The order also cuts off fuel for growing flowers, plants or winter vegetables, but means a restriction of hothouse space and directs that no florist growing flowers, plants or winter vegetables shall consume fuel of any description in excess of 50 per cent during the coal year beginning April 1 last.

## LAKE ERIE FIRE CAUSES LOSS OF NEARLY MILLION

LIMA, O., April 25.—Firemen succeeded early this morning in placing the Lake Erie ship fire under control after fighting it since 11 o'clock last night. Five units of the big shops are in ruins with an estimated loss of from \$500,000 to \$800,000. The roundhouse and storerooms were saved and by the hardest fighting the solar refinery, largest gasoline producers in the United States, and the Lima locomotive works were saved.

The fact that three separate and distinct fires broke out in the shops before the main blaze started makes it appear to be the work of an incendiary, and Will Pontus of Cicero, Ind., is under arrest and held for investigation.

Several firemen were overcome and Marion Commish, Lake Erie employee, is in the city hospital badly injured as the result of an acetylene tank exploding near where he was fighting the flames.

## NEW DIRECTORS MEET TONIGHT

Nine newly chosen directors of the Widows and Orphans Aid Association of the police department will meet tonight to elect the president for the new term. Captain J. F. Lynch, who has been head of the association for the last year, is said to be scheduled for the presidency this year.

Before the meeting of directors Captain Charles Beck and Sergeant Michael Byrne will decide between them who will be the ninth director, both having received an equal number of votes, thirty-six, in the balloting.

The eight other directors are: Lieutenant Paul Schmitt, Captain Lynch, Sergeant Charles Hornbill, Corporal Vernon J. Coley, Sergeant Frank Ahern, Inspectors Lou F. Agnew and William Quigley and Patrolman James Doonan.

The members of the association voted to increase the benefit for widows from \$1000 to \$1250. Instead of changing the entire regulations, the increase is classified as a funeral benefit.

**OBJECTORS SERVE WINE.**  
LONDON, April 25.—A report on punishments inflicted on refractory conscientious objectors in Great Britain shows that 5238 such cases have been dealt with during the period of the war, including 4880 cases of court-martial for refusal to obey orders. Seventy-two objectors have served sentences of two years' hard labor.

## MARRIED LIFE

## FIVE COSSACKS WAS TOTAL FORCE

HARBIN, Manchuria, April 25.—Five Cossacks constituted the original force with which General Semenov began his task of opposing Bolshevik rule in Siberia and of preventing the arming of thousands of German and Austrian war prisoners. Eventually his command increased to one thousand men. Semenov is a Russian Cossack.

His method of arming and financing his force was to make sudden raids on Bolshevik strongholds. The arms and supplies which he thus captured enabled him to gradually increase his force. In a short space of time he had established his authority over the railway from the Chinese border to China. His force would have grown more rapidly had it been possible for him to secure larger quantities of arms and ammunition, but having secured all the stocks in his district he had to cease recruiting until such times as the authorities in Harbin sent him military supplies. These were held up for a time by many of the higher military officers in Harbin who put obstructions in his way.

With the scantiest stock of ammunition he continued to fight and to maintain order on the railway, until General Horvath, the Russian military commander in Harbin who, in the beginning had opposed him, agreed to give Semenov his support.

By this time, the position of the German and Austrian prisoners who were being armed by the Bolsheviks, became a menace to the position of the Entente Allies in this part of the world, and they began to consider the advisability of giving Semenov the assistance he had asked for. But politics intervened, and as happened in other places where the allies have had to take joint action, prolonged negotiations between Harbin and Peking, and Peking and the foreign capitals ensued. While these were going on Semenov's ammunition was giving out and his men were in want of food and clothing. But for the fact that two of the allied countries advanced Semenov sufficient money for current expenses, he would have been forced to disband his men, and the only real movement in Siberia working for Allied interests would have vanished.

## STEFANSSON NEAR DEATH IN ARCTIC

FORT YUKON, Alaska, April 25.—Bringing with him an appeal for a doctor by Vilhjalmur Stefansson, the Arctic explorer, who lies dangerously ill on Herschel Island, a messenger has reached here after a record-breaking trip on the long trail from the north. In a message carried by the courier Stefansson told of being ill fifty days, after being stricken with typhoid and pneumonia, followed by complications.

SEATTLE, Wash., April 25.—A despatch from Fort Yukon, dated April 18, said Dr. Burke of the Royal Northwest Mounted Police had left the trail at Herschel Island to aid Vilhjalmur Stefansson, the Arctic explorer, whose illness was first reported by a messenger from the north. The police doctor expected to make the trip to Herschel Island in fourteen days. How the second courier, bringing Stefansson's message to Fort Yukon, missed the police doctor on the trail can only be conjectured on the assumption that the route between Herschel Island and Fort Yukon is broad and little traveled and no regular trail exists.

## SANTA CRUZ WINS RECORD ON BONDS

SANTA CRUZ, April 25.—Santa Cruz has made a record in selling "Liberty Bonds." When the campaign was started the announcement was made that when \$10,000 worth of bonds had been sold all bells would ring and all whistles blow. This mark was reached within a day or two. Since the sale of \$10,000 sales, these same bells have rung and whistles have blown, until the \$500,000 mark has been reached. This figure puts Santa Cruz well over the top.

Two well-known musicians, Warren B. Allen, dean of the conservatory of music of the College of Pacific and organist of Trinity Episcopal church of San Jose, and Mrs. Allen, will be heard in an organ recital at the Congregational Church of Santa Cruz tomorrow evening.

## COUNCIL FIGHTS FIRE AND POLICE PAY INCREASES

SAN JOSE, Jan. 25.—The city council in special session last night prepared arguments against a proposed increase for firemen and policemen which will go on the ballot at the May primary.

The council also is preparing limited arguments in favor of the increases, which will go on the ballot.

## Here's New Way to Go a'Courtin', Boys

KINGWOOD, W. Va., April 25.—A regular wild western scene was enacted at Howesville, near here, when Lee Brown took his girl out of an automobile driven by his rival, at the point of a gun. The girl, Miss Anna Howard, had an engagement to go driving with Brown, but instead went with Hunter Perrill and another couple. Brown met the party on the road and the hold-up followed. Brown was fined for violating the state pistol totting law.

## Porto Rico Workmen To Come to U. S.

SAN JUAN, Porto Rico, April 25.—Two thousand skilled workmen have been registered in Porto Rico through the efforts of the United States Employment Service of the Department of Labor and signified their willingness to go anywhere in the United States to aid in shipbuilding or any other essential war work.

F. C. Roberts, representing the Department of Labor here, made this statement yesterday. Besides the 2,000 workmen 10,000 unskilled workmen have been registered who are willing to go to the United States to work.

## Dock and Deck

The steam schooner South Coast is again in trouble and in tow of the steamer Phoenix. While en route for a northern port her steam pipes broke to leak, and it became necessary to stop. The schooner was towed to a safe anchorage and the lumber cargo was landed. The schooner is the first steam schooner built on the Pacific, was launched 31 years ago. She was run successfully until a year ago, since that time she has been having all kinds of trouble. One voyage she lost her mainmast, then she lost her boiler, then her engine, and on another trip ran into a large iceberg.

The new motor schooner Mar, which has been undergoing repairs at Itasca's shipyard since March 3, is almost ready for service. She came here yesterday for a final fitting out and her maiden voyage. Her name has been changed to Pelican. She will take a cargo of lumber, U. S. A.

PARR MCCORMICK CO. BUYER SCOTCHER FREEMAN. The Port Terminal Lumber Company has purchased the steam schooner Daisy Freeman from the Fair and Moxey Company. The terms of sale were given by the company, making a very high bid. The craft will continue in the coastwise lumber trade. She carries a cargo of 500,000 feet of lumber.

Commencing May 1, until otherwise ordered by the War Department, the Webster and Harlow street bridge across the estuary will not be open to traffic between the hours of 7:30 a. m. and 8 a. m. Also from 4:30 p. m. to 5:15 p. m. This order is issued by Colonel W. H. Luer, U. S. A.

**STEAMER POULSEN ON WAY HERE.**  
The steamer Johan Poulsen is on her way to Oakland with a lumber cargo, also with three marine boilers on deck. The boilers were built at an Oregon port and are to be installed in the new war ship building here. This is the third cargo of boilers the Poulsen has brought down from the north within the past month.

The steam tug San Pablo is still working on the Oakland harbor, her dumping pier and off Fort Island. She is working 24 hours a day and has a double crew. A section drifter is also at work at Navy's pier, making a queer kind of tug. The tug is being pumped near the Western Pacific tracks, filling in the low land.

Third Mate T. H. H. and seven sailors of the motor ship City of Helena were arrested yesterday at the San Francisco, as they could not produce draft cards. They were turned over to the United States marshal. The vessel arrived here from a South coast port Tuesday with a cargo of sugar.

Change of masters registered at the United States Customs House: Captain Wm. Peterson, steamer Lehigh; Captain W. E. Carlson, steamer Western; Capt. C. J. Johnson, steamer Gwynn; Captain H. L. Lee, steamer Captain Webb; Captain James F. Zachary, ship Katherina.

### Two Specials

**25c Brilliantine for the Hair**  
It imparts a life-like appearance of luster to the hair and is very popular among those who know its merits. Special tomorrow 17c and Saturday 17c

**Bowman's 25-Cent Eye Lotion**  
This lotion can be used with absolute safety and is especially soothing to weak or inflamed eyes after being subjected to the winds. You should carry a bottle of this remedy in your automobile. Special Friday and Saturday 17c

### DO YOU EVER CHECK UP?

How often do you find that you are suddenly out of some very necessary household articles? How about the following list of items? Don't some of these remind you of something else that you should get at Bowman's: Toilet soap, shaving soap, wash hazel, bath brushes, wash rags, talcum powder, prescriptions, toilet cream, hair brush, nail file, whisk broom, films for Kodaks, statuettes, perfume, blacking, peroxide of hydrogen, milk of magnesia, scissors, bath sprays, porous plasters.

**EVERSHARP LEAD PENCILS NEVER GET DULL**

### STEFANSSON NEAR DEATH IN ARCTIC

FORT YUKON, Alaska, April 25.—Bringing with him an appeal for a doctor by Vilhjalmur Stefansson, the Arctic explorer, who lies dangerously ill on Herschel Island, a messenger has reached here after a record-breaking trip on the long trail from the north. In a message carried by the courier Stefansson told of being ill fifty days, after being stricken with typhoid and pneumonia, followed by complications.

### SANTA CRUZ WINS RECORD ON BONDS

SANTA CRUZ, April 25.—Santa Cruz has made a record in selling "Liberty Bonds." When the campaign was started the announcement was made that when \$10,000 worth of bonds had been sold all bells would ring and all whistles blow. This mark was reached within a day or two. Since the sale of \$10,000 sales, these same bells have rung and whistles have blown, until the \$500,000 mark has been reached. This figure puts Santa Cruz well over the top.

### COUNCIL FIGHTS FIRE AND POLICE PAY INCREASES

SAN JOSE, Jan. 25.—The city council in special session last night prepared arguments against a proposed increase for firemen and policemen which will go on the ballot at the May primary.

## VICE CHARGE COMPLAINTS HELD BACK

Jean Devries, investigator for the State Law Enforcement League and one of former Senator E. E. Grant's assistants in the anti-vice crusade, failed to convince the present-day W. J. Hennessy today that the evidence in his possession was sufficient to gain convictions in court on the charges he desires to bring against certain Oakland saloons and cafes.

The issuance of the complaints asked by Grant and Devries was postponed till next week, when Devries promises to bring May Stebbins, the girl investigator and cafe entertainer employed by Grant, to substantiate his charges.

**CONTRA COSTA STATEMENT.**  
That some of the evidence presented by Grant as to Contra Costa county roadhouses is insufficient basis on which to proceed, is the contention of District Attorney Thomas D. Johnson of Contra Costa county in a statement issued today. Johnson announced that two places named by Grant will be closed under red-light abatement proceedings, however, and stated that the publication by Grant of the names of other places had given the tenants warning, and they had fled before writs of injunction could be served. The statement follows:

"Myself and other officials of this county have not only at the present time, but have in the past made continuous efforts to rid the county of questionable resorts. Up to the time of the discovery of the two houses in the western end of the county by ex-Senator Grant, we had no information to the effect that there were any in existence. Since I have been in office I have closed up over twenty vice houses, many of them being closed by the use of the abatement law, others by the penal statute. Senator Grant forwarded me the affidavits with reference to the places in the town of El Cerrito, and the city of Richmond, and I immediately prepared abatement proceedings and secured temporary writs of injunctions, but owing to the fact that Mr. Grant, or his assistants, gave the affidavits to the newspapers of San Francisco and Contra Costa county, at the time or before they were made to me, the occupants at 110 Contra Costa street in the city of Richmond had vacated before we could secure service. Hence, we have not yet been able to serve them."

**GRAND CENTRAL.**  
"The Grand Central roadhouse in the town of El Cerrito, in so far as being a house of prostitution, will absolutely be closed under the abatement proceedings, and the place in Richmond also. Of course, the Grand Central roadhouse holds its liquor license under the town government of El Cerrito, and the county authorities have no jurisdiction. With reference to other places mentioned in the newspapers, I have no objection to their being submitted to me in not sufficient upon which to proceed. The federal statute would cover both the other places, and the tax drivers, who have no jurisdiction in violation of federal statutes. But so far as I can understand, there is no state law covering these matters."

"Since I have been district attorney, I have not refused at any time to proceed against places of this character, and have sent several inhabitants of these places to jail for criminal contempt, for violating the court orders in that regard, as records of the county will show. I am willing to co-operate with Senator Grant, or any other person in closing up houses of that character. Of course, it must be apparent to any person that the district attorney is not a policeman, neither have I the officers available for that purpose in my office, and must depend upon peace officers, or private citizens for the evidence, and the moment the evidence is furnished me of any infraction of the law, I am willing to proceed against them."

## Tribune to Publish List of Liberty Bond Purchasers Monday

A list of names of purchasers of Liberty Bonds of the third issue will be published in Monday's TRIBUNE. It will comprise only those who have actually entered their subscriptions at a bank and institutional employees who have subscribed through their employers under some form of payroll deduction payment. This list is now in preparation.

Employers who are handling the subscriptions of their employees under a payroll deduction contract should telephone the Liberty Loan Headquarters, Lakeside 2700, for instructions as to how their lists should be prepared.

JOSEPH H. KING,  
Executive Chairman Oakland Liberty Loan Committee.

## Strike of Detroit Carmen Called Off

DETROIT, April 25.—The strike of 3500 motormen and conductors, which tied up street car service here since early yesterday morning, was called off today when the car men voted to suspend their differences to Federal mediation.

## MOONEY PLEA IS FOR DEATH OR A RETRIAL

SAN FRANCISCO, April 25.—Death or a new trial was the demand of Thomas J. Mooney, convicted of complicity in the preparedness parade bomb murders, today replying to the proposal that the death sentence of the court be commuted by Governor Stephens to life imprisonment.

"I refuse to buy my life by a life and a compromise," he declared. Mooney's signed statement is as follows:

"I understand that an effort is being made to have my sentence commuted to life imprisonment. I protest against this proposal and demand that the sentence of death under which I now rest be carried out or that I be given the fair and honest trial which I have not yet received. I believe that death is a fitting penalty for those guilty of the crime with which I am charged. I believe there should be no compromise in the case of any man accused of this crime. If he is guilty he should be hanged. If he is NOT guilty he should be set free."

"I stand squarely on the fact that I am wholly innocent, in word and deed, of all connection with the preparedness day crime, and on the certainty that this fact can be established in any honestly conducted trial before an unbiased jury. I am willing to submit, not merely my liberty, but my life to such a trial. If there is not justice enough in California or in the United States to obtain it for me, I demand that the sentence of death be carried out. I refuse to buy my life by a lie and a compromise."

"Even a condemned prisoner has rights. I stand upon mine."  
(Signed) "TOM MOONEY."

PHOENIX (Ariz.), April 25.—That Arizona workers will not join any May Day strike as a protest against the execution of Thomas J. Mooney, convicted and under death sentence for complicity in the San Francisco dynamite case, was indicated here today. F. J. K. McBride, former attorney for the State Federation of Labor, pointed out the resolution recently adopted by the executive board of the federation did not constitute a strike call.

SEATTLE, April 25.—By a vote of 76 to 17 the Seattle Central Labor Council is on record today as favoring a strike of one day, May 1, as a demonstration in favor of Thomas J. Mooney, convicted of murder in connection with the bomb explosion on the day of the San Francisco preparedness parade. The council voted against a strike for an indefinite period.

## Says More Rain Is Needed in California

More rain is needed in California and crops suffered somewhat from a north wind of several days' duration, according to the weather crop bulletin issued by the United States Department of Agriculture for the week ending yesterday. Concerning California the bulletin says:

"Several days of desiccating north winds were unfavorable for all crops and more rain is needed especially in the southern counties. Barley, wheat and oats made rapid growth. Harvesting the first crop of alfalfa is general and the yield is good. There has been extensive planting of potatoes, corn, sugar beets and truck crops, and the early planted are up and doing well. The deciduous fruit crop is uneven, in some sections it is excellent while in others it is poor. Citrus groves are in splendid condition; navel oranges are blooming and setting heavy, the Valencia are a good crop and large quantities of lemons are being picked."

## Many Prisoners in San Quentin Seek Release

Armed with thirty-four writs of habeas corpus for the release of as many prisoners confined in San Quentin, Warden Johnson has descended upon the Appellate Court. Release is sought for men who were sentenced under the indeterminate sentence law, whereas they should have been sentenced to definite terms under the old law, the offenses having been committed prior to the enactment of the new law and the sentences having been recorded subsequent to the new law going into effect.

The question of jurisdiction of the court to reimpose sentence in such a case was interposed by Attorney H. S. Skinner of Oakland before Judge W. S. Wells recently, but Judge Wells declined to hear the argument and returned the man to serve a definite term. The Appellate Court will hear the question on May 2. There are over 140 prisoners interested.

## Girls Refuse to Study Language of Germans

SAN FRANCISCO, April 25.—Girls in the Girls' High School are declining to elect German in the regular school course and where formerly there were more than 100 pupils of the school taking courses in German, there are now only nine. The girls are thus showing their feelings toward the language of the Kaiser, while the Board of Education is investigating the complaint that the teaching of German in private classes in the public school buildings is "not conducive to the spirit of patriotism."

"Whatever criticism there may be of the private German classes," said President George Gallagher, "one thing is certain, and that is that we are bringing up a generation of Molly Starks out at the Girls' High School. There isn't any sacrifice they would not make in the name of patriotism."

## Seek Stenographers for Government Work

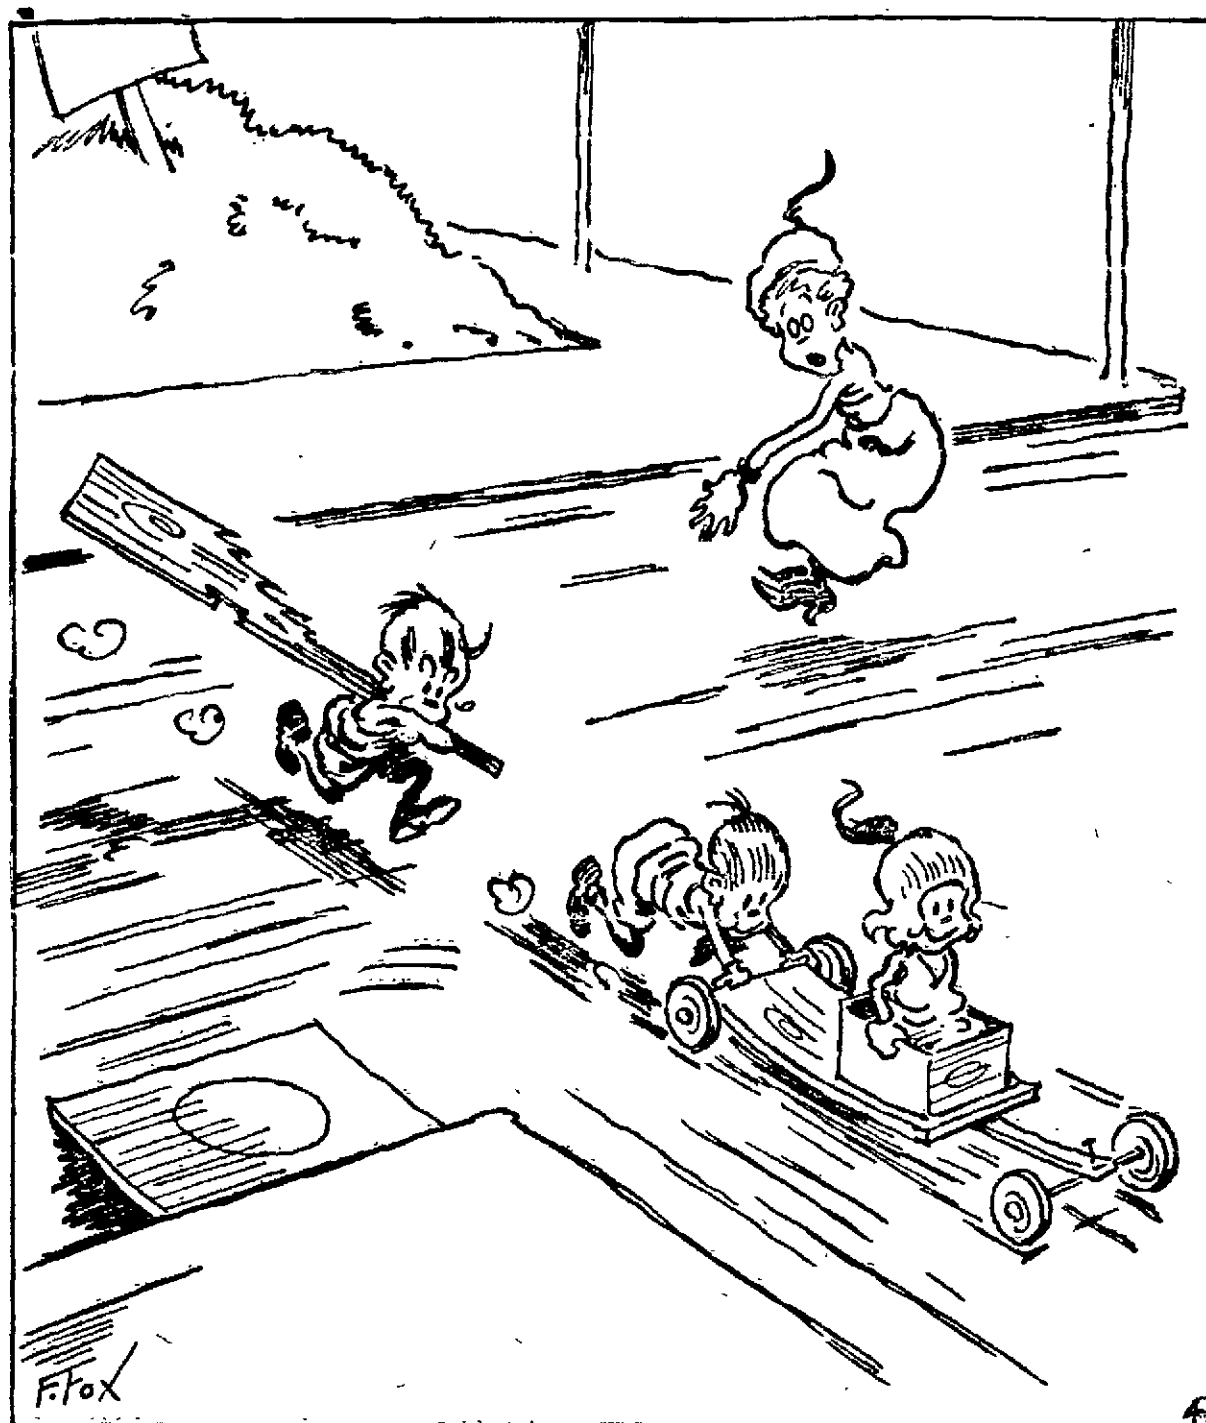

The United States civil service commission announces that appointments of stenographers and typewriters, both male and female, may be made in the departmental service in Washington, D. C., at \$1400 or more a year.

Eligibles for these positions must have had at least one year of satisfactory experience in mercantile or administrative work and must have earned at least \$900 a year.

Examinations are held every Tuesday in the postoffice building and application forms and further information may be obtained from the secretary of the twelfth civil service district, room 241, postoffice building, San Francisco, Cal.

## PLAN PARADE AS LABOR DAY CELEBRATION

Oakland will see a Labor day parade this year for the first time in many years, according to plans now under way by committees of the Central Labor and Building Trades councils. The parade will be different from any similar event ever held in the state, if the committee's plans are carried out. They propose a mammoth patriotic demonstration, in which the shipyard workers will assume prominent parts, in which soldiers and sailors will be invited to march for the first time at an Oakland labor parade with the ranks of organized labor, and efforts will be made to have the Marine band and the United States Marines from Mare Island also in the procession.

Floats showing the progress of Oakland's shipbuilding and its meaning as an aid in winning the war, children from the schools, sons and daughters of Oakland's laborers, the women of organized labor, will all be assigned to places in the line of march.

As a preliminary to the plan a referendum vote has been called for by all unions on the parade, this being necessary under the local organization rule. The Central Labor Council has recommended the parade and officials are assured that the vote will be overwhelmingly for it.

Labor day is the first Monday in September. A number of years ago the parade custom was given up and a picnic substituted. In view of the war conditions this year the workers hold that the parade will be a fitting demonstration of the loyalty of labor.

## Uruguyan Mission Permitted to Proceed

WASHINGTON, April 25.—The Uruguyan mission to France, which recently was intercepted by a German submarine operating off the Canary Islands, was, according to reports received here, finally permitted to proceed, but it is not known under what conditions.

It was the halting of the mission which caused Uruguay to call on Germany for an explanation and give indications of a disposition to regard the interference as an act of war.
